YOUR ONLY SOLUTION PARTNER IN ALL CONDITIONS

HOMPARTS

YOUR ONLY SOLUTION PARTNER IN ALL CONDITIONS

- **Homparts' Strength in the Industry:**
- At Homparts, with our experience and expertise since 1999, we provide high-quality *granular activated carbon* and *activated carbon blocks* for the water filtration sector. With our coconut-based and coal-based products, we ensure the efficient operation of your water treatment systems and help you meet the highest quality standards. Our goal is always to offer the best value with the highest performance at the most competitive prices.
- With our many years of experience in the water treatment industry, we are always here to provide you with reliable and top-quality products.
- **Best Regards,
Homparts Team**

YOUR ONLY SOLUTION PARTNER IN ALL CONDITIONS

Water Filters:

- One of the most effective ways to achieve clean water in the water treatment and purification sector is through the use of activated carbon. Both Granular Activated Carbon (GAC) and Activated Carbon Blocks (ACB) play a crucial role in removing contaminants from water.
- Activated carbon has a highly porous structure with an extensive surface area, which allows it to effectively adsorb harmful chemicals, chlorine, organic compounds, and heavy metals from water. Due to these properties, activated carbon is an ideal solution for purifying water and eliminating substances that may pose a risk to human health.
- Our products could be customized according to our customers needs.
- Please see some example of our product below :
- VOC reduction blocks, Heavy metal reduction blocks, inline filter(pre carbon), inline filter(post carbon), inline filter(sediment), inline filter (mineral), inline PP Spun etc.

FILTRATION RESULTS

The Carbon Filters are made of fine **COCONUT SHELL** carbon that offers a much finer filtration of suspended particle, chemicals, & dirt.

HOMPARTS

YOUR ONLY SOLUTION PARTNER IN ALL CONDITIONS

- **CYST REDUCTION CARBON BLOCK:**

- Activated Carbon filters were Launched as premium Custom Designed Carbon Blocks
- engineered with the art of technology and a better selection of fine graded Virgin Coconut Shell activated carbon to give the most performance and increased lifetime of the product being a pioneer in GAC/PAC manufacturing, Ecogreen carbons experience and knowledge supported to bring the best selection of our grade and technology to make premium grade carbon blocks and cartridges.

- **Features & Benefits**

- 1) High Adsorption rate, Surface area and microporosity
- 2) Low lifetime Drop.
- 3) Compressed technology
- 4) Functional and customized block as per customer's requirement.

- **Application:**

- 1) Point of Entry (POE) & Point of use (POU)
- 2) Residential
- 3) Industrial

APPLICATION	MICRON	HEIGHT(mm)	OD(mm)	ID(mm)	Flow rate in GPM
CYST	1	124	70	26	0.5
CYST	1	173	70	26	0.75
CYST	1	248	70	26	1.0
CYST	1	504	70	26	2.0
CYST	1	250	114	26	4.0
CYST	1	508	114	26	7.0
