

### **TRAINING ASSISTANCE PROGRAM**

At Great Circle Aviation, we have seen cadets facing difficulties in choosing a decent flying school and many times after spending a lot of time and money; they ended up choosing a not so good option. This results in not only wastage of their parent's hard-earned money but also results in a major loss of time which they have actually saved by getting rigorous ground training at our ground classes and passing DGCA exams in least possible tenure.

Our expert team of pilot instructors identified this gap and came up with this brilliant and finely curated assistance program where our cadet's journey with us continues during his flying training as well, until he/she earns their pilot license.

### **BENEFITS AND SERVICES OFFERED BY GREAT CIRCLE AVIATION**

1. Being veterans in aviation, we understand aviation market, current scenario amongst training organisation in India and abroad and flying training requirements very precisely. Using our knowledge and expertise, we suggest an adequate option to our trainees.
2. Finance being the essence of pilot training, we have banking associates under our roof imparting education loan to the trainees as per their requirements and eligibility.
3. Cost of flying is one the major factor in pilot training. Costlier flying schools may not necessarily better ones. At the same time timely completion of flying training is also important. Keeping that in mind we analyse all pros and cons of all possibilities and then suggest you a value for money option.

4. Increment in flying training fees happens to be an evident problem in many flying clubs globally. We extend our support to our trainees preventing any such happening and handle similar situations.
5. Complete day to day monitoring of the flying related activity till receiving the license.
6. Saves almost a year on training, considered most precious in aviation.
7. Much required technical assistance during flying training.
8. Trainee can share and discuss about any issue happening at the flying school that need to be addressed.
9. Helpful in maintaining synchronized establishment with the pilot instructor or may be change of any.
10. Helpful in making maximum effort to complete the task in designated tenure.
11. Trainee can anytime discuss any difficulty or gap regarding learning any flying skill with their previously known instructor at Great Circle Aviation. Proves to be extremely helpful specially in initial stages of training.
12. We maintain single point of contact with flying schools at the highest instruction level, making it seamless to solve any of the possible issue regarding training.
13. Continued monitoring and mentorship even after getting the DGCA license regarding type ratings and airline recruitment processes etc.
14. Many other real-life benefits which can only be experienced while training.
15. Extremely cost-effective program worth in preventing many possible hiccups and assuring peace of mind.

- **This is an unbiased support program for the welfare of trainees, curated to give them a seamless experience while training.**
- **Great Circle Aviation is an independent group and does not promote or advertise any particular flying training organisation.**
