We're Hiring: Full-Stack Developer Interns

Job Title: Full-Stack Developer (Internship)

Location: Hybrid

Job Type: Full-Time Internship

About the Role

At **Creativity Ventures.**, we're building next-gen, AI-integrated applications that redefine how technology empowers people. We're looking for **passionate Full-Stack Developer Interns** to join our technology team.

As part of this role, you'll gain hands-on experience in **building**, **deploying**, **and maintaining scalable web applications**, while collaborating with product, AI/ML, and cloud teams to deliver seamless user experiences, real-time analytics, and innovative features.

Responsibilities

- Design and develop dynamic, responsive, and user-friendly interfaces.
- Work with React.js, HTML5, CSS3, and JavaScript, along with modern UI frameworks such as Tailwind CSS or Bootstrap.
- Build and maintain scalable, secure APIs using Node.js (Express.js) or Python (Django/Flask).
- Manage and optimize databases (MySQL/PostgreSQL, MongoDB optional).
- Integrate front-end components with back-end APIs (REST/GraphQL).
- Optimize applications for performance, scalability, and cross-device compatibility.
- Collaborate with AI/ML teams to integrate advanced features.
- Set up and maintain CI/CD pipelines.
- Deploy and manage applications on AWS, Google Cloud, or Azure.
- Write and execute unit tests (Jest, Mocha) and debug APIs using tools like
 Postman.

Required Skills (Intern-Level)

- Basic knowledge of **React.js**, **HTML**, **CSS**, **JavaScript**.
- Familiarity with **responsive design principles**.
- Understanding of APIs (REST/GraphQL) and how to consume/integrate them.

- Basic knowledge of Node.js/Express.js or Python frameworks (Django/Flask).
- Familiarity with databases (MySQL/PostgreSQL).
- Exposure to Git/GitHub version control.
- Awareness of **cloud platforms** and deployment basics.
- Ability to debug using **browser DevTools** and testing tools like **Postman**.

What We Offer

- Hands-on full-stack development experience.
- Exposure to AI/ML-powered applications.
- Mentorship from experienced engineers.
- A fast-paced, innovation-driven environment.
- Opportunity for full-time placement based on performance.
