

5-6
Applications
per season.

- I. Spring
- II. Late Spring
- III. Summer
- IV. Early Fall
- V. Late Fall

Lawn Care Program

Tired of a different person on your lawn every year, or every treatment?
No two lawns are the same. We take pride in individual care to get to know your lawn and provide the best possible care each year.

Our applications emphasize good nutrition. A lawn is a living system that must be managed with this in mind. Pesticides are used **only when definite need is established by a licensed agronomist**, rather than in a preventive type program provided by many spray services in which your lawn gets the same treatment as any other lawn whether it needs it or not. Research over the country has shown that a properly nourished lawn is resistant to insect damage, disease, and weeds... Often eliminating the need for pesticides all together.

Better service
through increased
individual attention.

Your lawn is provided
with its own custom
program designed for
its specific needs and
at a cost that is
competitive with less
flexible spray
programs.

Deep Roots Lawn Service is a complete lawn care company, that is, beside our regular lawn care program indicated above, we have the capacity and skill to renovate and rebuild lawns, to provide special seedlings and soddings grown from some of the world's best grasses. All of these extra services are available to our regular lawn care customers at significant discounts.

NO CONTRACT is required!... You may cancel at anytime.

Family owned and operated with over 50 years of combined experience in turf management.
Put your immediate environment -your lawn- in our qualified hands!

For a free, no obligation estimate and turf analysis for your lawn,
