**ELEVATE YOUR
BATHROOM EXPERIENCE
SANITARYWARE COLLECTION**

COLLECTION 2025

SAFE, CLEAN AND HEALTHY

Sanitaryware, more than just functional, is a design statement that prioritizes health and hygiene. Sleek ceramic and vitreous designs, often adorned with minimalist or contemporary lines, offer a visually appealing and germ-resistant surface. DCI, a leader in innovative sanitaryware, seamlessly blends aesthetics with functionality, offering products that are not just hygienic but also a stylish addition to any modern bathroom.

COLLECTION 2025

30th
YEARS
EXCELLENCE

PURE LIVING, PURELY DCI.

A TOUCH OF ELEGANCE,
A WORLD OF HYGIENE.

Where exquisite design meets
uncompromising hygiene.

FROM HUMBLE EARTH, WE CRAFT ELEGANCE. TRANSFORMING NATURE'S GIFT INTO TIMELESS BEAUTY.

DCI Sanitaryware epitomizes the perfect blend of
artistry and engineering.

Each product, from sleek wash basins to elegant
water closets, is crafted with meticulous care.
Skilled artisans, armed with traditional techniques
and modern technology, shape and mold the clay
into stunning forms. Rigorous quality control
ensures that every piece meets the highest
standards of durability and hygiene. DCI's
commitment to sustainability is evident in its
eco-friendly manufacturing processes and
water-efficient designs.

With a focus on both aesthetics and functionality,
DCI offers sanitaryware solutions that elevate the
bathroom experience.

CRAFTED WITH CARE, ENGINEERED FOR LIFE.

Skilled artisans meticulously shape and mold each product, paying attention to every detail.

PRODUCTION AND QUALITY

The Heart of Sanitaryware: Key Raw Materials

The foundation of DCI's exceptional sanitaryware lies in the quality of its raw materials. Kaolin, a prized clay known for its whiteness and plasticity, forms the heart of the ceramic body. Ball clay, rich in minerals, adds strength and durability. Feldspar, a natural flux, aids in the firing process, while quartz enhances hardness and thermal shock resistance.

By carefully selecting and blending these essential ingredients, DCI ensures that each product is not only aesthetically pleasing but also built to last.

The Art and Science of Sanitaryware Manufacturing

The creation of DCI's exquisite sanitaryware is a meticulous process that blends artistry and science. High-quality clay, such as kaolin and ball clay, is carefully prepared and molded into desired shapes.

The molded products are then dried and fired at high temperatures to achieve the desired hardness and durability. A layer of glaze is applied and fired again to create a smooth, hygienic surface. Decorative elements, if desired, are added to enhance the aesthetic appeal. Throughout the process, rigorous quality control measures ensure that each product meets the highest standards of excellence.

Green by Design, Clean by Nature.

DCI incorporates sustainable practices into every stage of the manufacturing process.

Clay to Casting

Create the desired shape and intricate details of the product.

High-quality clay, such as kaolin and ball clay, is carefully selected and prepared. The clay is mixed with water to form a smooth, workable slurry. The clay slurry is poured into molds, which can be made of plaster or ceramic. The molds are carefully designed to create the desired shape.

Drying to Firing

High-temperature kilns to harden and vitrify the clay.

The molded products are dried to remove excess moisture, typically in a controlled environment. This process ensures uniform drying. The dried products are fired in high-temperature kilns. The firing process transforms the clay into a durable, non-porous ceramic material.

QUALITY STANDARDS TO PROTECT YOUR HEALTH

	SCRATCH RESISTANT
	ECO FRIENDLY
	BRIGHT GLISTER TOUCH
	EASY CLEANING
	ANTI BACTERIAL

Washdown

The way wash down flushing works is very simple. It will use the weight and gravitational flow of water from a toilet bowl. It will save your water effectively as it includes dual flushing.

Tornado

Tornado flush system features two powerful nozzle that will create a cyclonic rinsing action. It will reduce waste buildup & keeps the bowl neat and clean. This high-efficiency mechanism is more effective in one flush that most toilets are with multiple flushes.

WARRANTY

DCI BATH products are subjected to strict controls during every step of the production cycle to provide the best guarantees on the quality of the product. For this reason, the DCI's products are warranted against manufacturing defects for a period of 10 years.

6 REASONS TO CHOOSE DCI®

Technology

DCI has brought the spirit of innovation to the bathroom - a recipe for success that has made it leading supplier of ceramic sanitary ware. Now, DCI is set to use state of the art technology to make everyday life more comfortable and convenient.

Comfort

Comfort will play an essential role in the bathrooms of tomorrow. That's because anyone who values first-class design attaches the same importance to other aspects of their bathroom. DCI has developed the perfect solutions to meet these existing requirements, bringing you the very best that modern bathroom culture has to offer.

Innovative Design

The design plans are sketched out in a way that they stay true to the modern- day decor. They will blend into your spaces with a flair of familiarity. The sanitaryware is fashioned in a manner that will acclimate into all kinds of interior decoration style environments. There will be no bargain on quality and look of the creation.

Well-being

Since time immemorial, modern bathroom culture has represented the epitome of cleanliness and well-being. Above all, every DCI bathroom provides not only convenience & functionality, but also a heaven for relaxation. It is for this reason that DCI brings together oriental bathroom culture with Western engineering.

Purity

The bathing ceremony has always been an element of modern culture. Cleanliness and hygiene are an integral part of everyday life in modern living, where spiritual and physical purity go hand-in-hand. One cannot exist without the other. This is also one of DCI'S main principles.

Bacteria Free

The ground breaking Silver Nano technology is being put to use into all the bearings of DCI Sanitaryware. The series is layered with distinct a Nano Ceramic glaze containing Silver Nano particles that is the ions. This will prevent any kind of bacteria to thrive making it absolutely clean and safe.

WHY DCI?

UNMATCHED CUSTOMER SUPPORT

At DCI Bath Fitting, we believe that exceptional products deserve exceptional service.

That's why we offer **DCI TruCare**, a comprehensive customer support system that ensures seamless assistance at every step. With our **toll-free contact number (1800-121-331-800)**, customers have direct access to our specialized digital services team, ready to address any inquiries or support needs swiftly and efficiently.

10 Year Warranty: A commitment to quality and trustworthiness.

DEALER SUPPORT

Branding and Display: indoor and outdoor branding support.

On-site delivery within 7-10 working days*.

Seasonal sales and flash deals are carefully designed to boost your sales while providing incredible savings and exclusive offers. Whether it's a festive promotion or a limited-time offer,

WATER CONSERVING

3/7 Lt WC Pans

Saves water with 3 Ltr. consumption for half function and 7 Ltr. consumption for full function.

1 Ltr. Urinals

Saves water with only 1 Ltr. of water consumption.

ONE PIECE CLOSET A MODERN PLUMBING MARVEL

Sleek and Modern Design: The seamless design creates a clean and contemporary look for your bathroom.

Easier to Clean: The absence of a joint between the tank and bowl reduces the number of crevices where dirt and grime can accumulate.

Reduced Risk of Leaks: The fewer joints mean fewer potential leak points, making one-piece toilets more reliable.

Faster Installation: The integrated design simplifies the installation process, saving time and effort.

Green by Design, Clean by Nature.

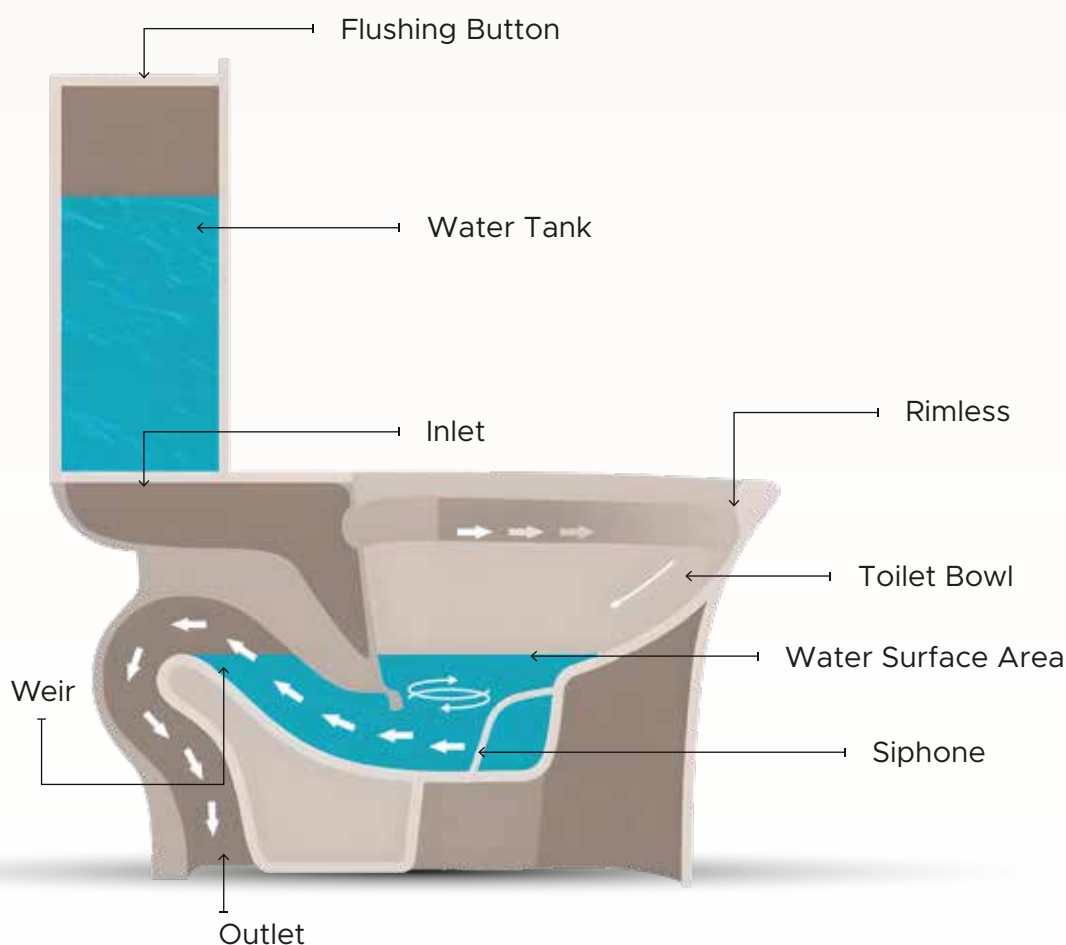

DCI incorporates sustainable practices into every stage of the manufacturing process.

THE ENGINEERING MARVEL BEHIND ONE PIECE CLOSET

Large water surface offers easy cleaning Extra large siphon jet for maximum power Elegant skirted design offers easy cleaning Large computer designed, fully glazed trap way reduces clogging.

KITCHEN SINK CLEANLINESS THE KEY TO WELLNESS

Water Conservation: Many modern sinks come with water-saving features like aerators and low-flow faucets.

Durability: Made from durable materials like stainless steel, porcelain, and composite, ensuring long-lasting performance.

Easy Maintenance: Simple to clean and maintain, requiring minimal effort.

Accessibility: Designed to be accessible for people of all ages and abilities.

Green by Design, Clean by Nature.

DCI incorporates sustainable practices into every stage of the manufacturing process.

QUARTZ SINK

DCI COLLECTION

Experience the epitome of kitchen elegance with DCI's Quartz Sinks. Crafted from premium quartz.

SS-1086	18" x 16" x 8"	16" x 14"	3390
SS-1087	20" x 17" x 8"	18" x 14"	3690
SS-1088	21" x 18" x 8"	19" x 16"	3990
SS-1089	22" x 18" x 8"	20" x 16"	4390
SS-1090	24" x 18" x 9"	22" x 16"	4890

Drain Board (Oval Bowl)

Code No	Overall Size	Bowl Size	MRP (₹) SS 204
SS-1091	37" x 18" x 8"	16" x 14"	7190

Double Bowl (Square Bowl)

Code No	Overall Size	Bowl Size	MRP (₹) SS 204
SS-1092	37" x 18" x 8"	16" x 14"	8990
SS-1093	45" x 20" x 8"	20" x 16"	11990

TECHNICAL SPECIFICATION

Technical specification of vitreous sanitaryware as per IS 2556 (part 1): 1994/2004

NAME OF TEST	AS PER IS 2556 (Part 1) 1994	OUR TEST VALUES
Crazing Test	No Crazing up to 2 Cycle up to 5 hrs. Each Cycle or 10 Hours At Pressure 0.34 to 0.37 Mps.	No Problem Up to Cycle and No Crazing
Water absorption	Average Value Should not exceed more than 05%	Max 0.30% show better vitrification
Modulus of rupture	Not less than 60 Mps.	Min 70Mps./Min 80 Mps.
Chemical resistance	No loss of reflectivity of the glaze when compared with control sample	No loss of reflectivity of the glaze when compared with control sample.
Resistance to staining and Buring	No Stain shall remain on either of test pries	No Stain shall remain on either of test price
Wavy finish	None on all visible surface	None on all visible surface
Discoloration		None on all visible surface

MAINTENANCE

Like any other part of your house, the bathroom can be made to look great and made to last if it is taken care of regularly. To make your bathroom beautiful here are some invaluable tips.

WASH BASIN

A mild detergent can be used to wash the basin at least once a day. After Washing, the basin should be wiped out clearly to avoid water stains.

CLOSETS

Clear the closet with soft plastic brush, at least once a day.

To avoid minute discoloring. after flushing the toilet give it a rinse over with the soft brush. Keep the toilets and basins clean, if there has been no maintenance since long period of time, water deposits and discoloration can form on the surface of areas that get wet. In such cases, these stains/marks can be removed with the help of a solution of dilute hydrochloric acid.

Clean with a soft cotton cloth and warm water with soap.

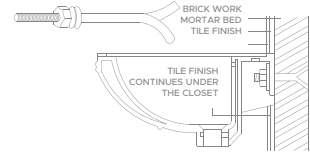

Do not use thinner, dry cleaning liquids or powder paste. Use a liquid cleaner at least twice a week.

Use Brasso or car rubbing compound and then polish with a cloth to remove fine scratches.

INSTRUCTIONS

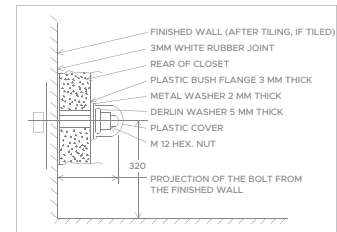

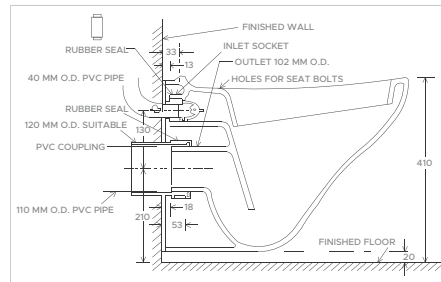

WALL HUNG BASIN

Fixing : the rag should be first grouted into the wall using cement / concrete, (as shown) as per the distance between slots provided in the wash basin. The bolts should be fixed perpendicular to the wall. Allow cement / concrete to set. Check if the Rag bolts are firmly fixed. Fix the Wash Basin in the bolts using Nuts & Washer.

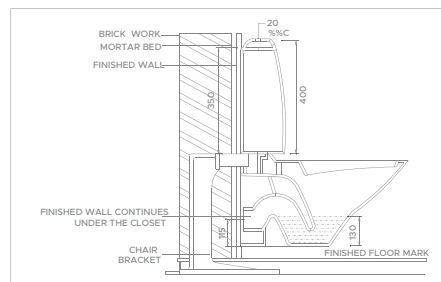

CONCEALED WALL HUNG

1. If the wall is going to be plastered for a thickness of 12mm and a tile thickness of 6-7mm, the projection of the bolts from the finished wall should be 66mm only.
2. If the thickness of plastering and tile is less than the dimensions mentioned above, the bolt that are supplied along with the bracket should be moved into the wall by using a suitable spacer washer between the bolt head and the bracket frame.
3. The bracket should be buried into the floor so that the height from the center line of the bolt to the surface to the finished floor is 320mm.

WALL MOUNTED COUPLE CLOSET

COUNTER WASH BASIN

(A) Before You Begin

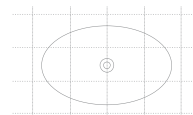

1. Due to typical nature of the installation, under counter basin should be installed by trained and experienced installers.
2. Inspect the waste and supply tubing if necessary.
3. Install the basin in such a way, that it's removal in future can be done freely and without damage.
4. Prior to installation unpack the new basin and inspect it for damage. Keep the product to its protective carton until it is ready to be installed.
5. Observe all local plumbing and building codes.

(B) Tools and Materials

1. Sealant, Pencil, Measure Tape, Sharp knife or scissors, Keyhole or saber saw, Drill (1/2 dia, drill bit or larger) glasses, Haer, Rage or paper toweling.
- NOTE: You may require different, more specialized tools to install this basin on counter top materials other than wood or wood components.

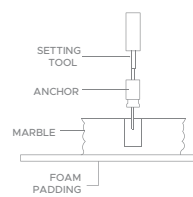

(C) Install the Basin

1. Check the desired lavatory location for clearance between the back splash, faucet, fixture and cabinet.
 2. Cut out the template.
 3. Carefully position and trace the template on the counter top as directed on the templates.
 4. Mark the faucet hole centerline on the counter top.
 5. Drill a 1/2" pilot hole on the inside of the cut line.
 6. Cut out the counter top opening with a saber or keyhole saw.
- NOTE: Install the basin in such a way that it's removal in future can be done freely and without damage.

FOR WOOD COUNTER TOPS

1. Mark and pre-drill the wood screw holes at the locations shown on the template.
2. Waterproof any exposed areas of wood.

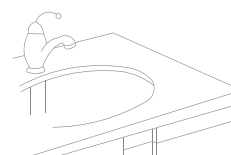

FOR MARBLE COUNTER TOPS

1. Position the counter top upside down on foam
- 3/16" holes 5/8" deep at the locations shown on the template.
2. Use a setting tool and haer to secure the anchors.

FOR ALL INSTALLATIONS

1. If the counter top has not been installed, install it as stated below.
2. Drill the faucet holes according to the faucet installation instruction.
3. Install the faucet to the counter top according to the manufacture's instruction.
4. Install the drain to the lavatory according to the manufacture's instruction.
