ABOUT AEROEXPERT SOLUTIONS

THROUGH THE SKIES, WE SHAPE THE FUTURE.

Aeroexpert Solutions is an international group specializing in aerospace engineering, regulatory compliance, technical training, and innovative technologies for a safer, more sustainable, and accessible aviation industry.

 Aviation Innovation. Local Expertise. Global Impact. Founded by experts with over 25 years of experience and direct collaboration with Bombardier, Airbus, Boeing, ICAO, FAA, EASA and Transport Canada, we bring together global technical excellence and a deep understanding of emerging markets..

We Support:

OEMs, MROs, and airlines with certification, modifications, and performance strategy.

Civil aviation authorities in building standards aligned with ICAO and global benchmarks.

Governments, NGOs, and startups in delivering impactful aviation innovation and development projects.

WHY CHOOSE US – WE ARE SOLUTIONS-ORIENTED

✅ **Results-Driven Approach**

We focus on delivering practical, measurable outcomes—not just reports or advice.

🔧 **Tailored Solutions**

Each project is customized to meet your specific operational, technical, and regulatory challenges.

🤝 **End-to-End Support**

From concept to implementation, we guide you through every stage with clear action plans.

🌐 **Global Standards, Local Insight**

We align with ICAO, EASA, FAA, and other global benchmarks while adapting to local contexts.

✂️ **Multidisciplinary Expertise**

Our team blends engineering, regulatory, operational, and digital skills to solve complex aviation issues.

📊 **Future-Focused**

We integrate innovation and sustainability into every solution, preparing you for tomorrow's challenges today.

OUR CENTERS OF EXCELLENCE

AERO|CERT PRO

TC– STC-Repairs/ Modifications

Full support for aircraft certification (STC, TC, modifications), technical justifications, documentation, and international compliance..

AERO|ACADEMY

Technical Training & Mentoring

Certified programs (online or hybrid), drone/eVTOL/STC specialization, and guidance for technicians, inspectors, and engineers

AERO|LINE – Drones | eVTOLs |

Air Mobility

Specialized missions (health, agriculture, inspection), pilot projects, regulatory integration, medical delivery, and rural logistics..

AERO|DIGITAL – SaaS Platforms

& Compliance Tools

E-learning, digital audits, online regulatory tools, and training portals.

AERO|REGULATION

Authorities & Aerospace Operators

Design of regulatory frameworks aligned with ICAO, IATA, EASA, FAA, and TCCA standards. Partnerships with CAAs and ministries for capacity , Safety & Security building.

AERO|STRAT

Aerospace Studies & Strategy

Technical roadmaps, airline transformation, sustainable aviation strategy, innovative project planning, and expert support for disputes and negotiations.

AERO|IMPACT

Funded Projects & Cooperation

Support for design, setup, and management of funded projects (EU, AFD, AfDB), plus technical assistance to NGOs, local authorities, and governments.

AERO|INSIGHT

Aerospace Media & Influence

Aeroexpert magazine: technical articles, opinion pieces, interviews.

TECHNICAL EXPERTISE & CERTIFICATION

Aeroexpert Solutions, with over 25 years of experience, supports aerospace manufacturers and operators in achieving certification and airworthiness compliance

Our Services

- ❖ **Full support for Type Certifications, Supplemental Type Certifications (STC), and Repair Justifications**
End-to-end certification and approval support.
- ❖ **Technical Documentation and Compliance with Civil Aviation Standards**
Civil aviation-ready manuals and reports.
- ❖ **Regulatory Framework For Safety & Security : Audit & Development**
Assess and build aviation regulations.
- ❖ **Support to Regulatory Authorities for Compliance and Standards Development**
Help define and align safety standards.

STRATEGIC VISION & DEVELOPMENT

Aeroexpert Solutions advises aviation authorities, OEMs, airline companies, and NGOs on developing structured projects, sustainable technologies, and fostering impactful growth.

Our Services

- ❖ **Assessment & Optimization of Aerospace Engineering Projects**
In-depth analysis and enhancement of aerospace processes and projects to ensure efficiency, safety, and performance
- ❖ **Competency-Based Tailored Training & Technical Mentoring**
Customized training programs and expert guidance to strengthen individual and organizational capabilities.
- ❖ **Aerospace Capability Building & Local Expertise Development**
Support in developing local aerospace skills and implementing sustainable operational solutions.

ADVANCE OPERATION & MOBILITY

Aeroexpert Solutions empowers the future of flight with cutting-edge innovations in drone technology, eVTOL integration, and next-generation air mobility.

Our Services:

- ❖ **Specialized Aerial Missions**
Tailored operations for healthcare, agriculture, infrastructure inspection, and environmental monitoring.
- ❖ **Pilot Projects & Operational Deployment**
Design, launch, and scaling of innovative mobility initiatives, including urban air mobility and last-mile delivery.
- ❖ **Regulatory Integration & Compliance**
Guidance for aligning new air operations with evolving national and international aviation regulations.
- ❖ **Mobility Strategy & Ecosystem Design**
Strategic planning for future air mobility
