

Phonics Fishing Game

How to Play:

Create the Fish –

- Cut out fish shapes from coloured paper or cardstock.
- Write letters, phonics blends, or simple words on each fish.

Add a Paperclip –

- Attach a small paperclip to each fish so they can be "caught."

Make Fishing Rods –

- Use a stick, string, and a magnet to create fishing rods.

Fishing for Sounds –

- Kids take turns fishing for a letter or word, and parents help them sound it out.

Matching Challenge –

To add a twist, have a set of picture cards that match the words or sounds on the fish. Kids can fish for a letter and then find a matching picture.
