

THE SOLUTION — IN ONE SENTENCE

We replace the receptionist, the scheduler, and the follow-up system that solo business owners can't afford — with AI that costs less than \$7/day.

THE THREE PILLARS OF THE SOLUTION

■ We Answer Every Call and Chat — 24/7

Your clients never hear a voicemail again. Our AI receptionist picks up the phone, answers questions, and captures lead information day and night — even at 2 AM and on weekends.

■ We Fill Your Calendar Automatically

Clients book themselves through an online system connected to your calendar. No back-and-forth, no phone tag. Your calendar fills up while you're on the job.

■ We Follow Up So You Don't Have To

Automatic texts and emails go out after every inquiry and appointment — keeping clients engaged and coming back without you thinking about it.
