## Experience

**Product Designer**  
**Goalsetter**  
United States, Remote  
2021 - Today

I played a key role in creating a design system to adopt the company's new identity, following best practices like atomic design and focusing on accessibility. We developed a scalable system that functions across different devices and enhances workflow efficiency. Also, we provided a detailed handoff to ensure a smooth transition to the developers.

**UX/UI Team Leader**  
**Taligent**  
Argentina, On Site  
2015 - 2021

I had the opportunity to manage relationships with clients from global companies, providing regular updates on the progress and milestones of each project. I led a team responsible for the design and implementation of dashboard solutions. Starting from the kick-off, we engaged with users in multiple meetings to improve their experience with data visualization.

**UX/UI Designer**  
**Freelance**  
Worldwide, Remote  
2013 - 2015

I worked on several projects, specializing in web and responsive design. I created intuitive, user-friendly interfaces, optimizing websites for smooth performance across all devices. I also collaborated with developers and teams to ensure brand consistency and a better user experience.

## Education

**Bachelor of Science in Information Technology**  
**University of Palermo**  
2017 - 2019

**Bachelor in Software Development**  
**UADE University**  
2013 - 2016

**Graphic Design**  
**Higher Creative School**  
2010 - 2012
