

A BRIEF STORY ABOUT THE COMPANY

About Us

Founded in 2009, Homevipotech is a comprehensive building materials supplier based in Hong Kong, dedicated to delivering high-quality solutions for architectural and design needs.

Recently, the company has expanded its portfolio with the launch of Sinoflexistone—its new brand specializing in soft stone production. The state-of-the-art Sinoflexistone factory, strategically located in Zhaoqing City, covers a sprawling area of 120,000 square meters and is repurposed from an existing ceramic manufacturing facility. With plans to establish 12 advanced soft stone production lines, the factory aims to become the largest and most sophisticated soft stone manufacturing base in South China, solidifying Homevipotech's position as a leader in innovative building materials.

Moon Stone

inspired by the ethereal allure of lunar minerals. Each surface embodies the cosmic beauty of moonstone—with subtle, crater-like undulations and misty gray tones that mimic the moon's rugged terrain. Perfect for spaces seeking a blend of otherworldly charm and natural sophistication, this series brings the mystique of celestial landscapes to modern interiors, creating an ambiance that feels both grounded and infinitely cosmic

The Travertine Series is inspired by the unique textures and natural beauty of travertine stone, showcasing the perfect blend of nature and artistry. Each piece retains the distinctive pores and flowing patterns, bringing depth and visual elegance to any space. This series offers a versatile range of colors, from soft neutrals to rich dark tones, suitable for modern, classic, and luxurious design styles. Whether used for wall cladding, flooring, or furniture surfaces, the Travertine Series adds timeless charm and natural sophistication to your interiors.

Rammed Earth

Inspired by the raw elegance of traditional rammed earth architecture, these patterns showcase organic, layered surfaces with subtle textural variations. The warm beige of Desert Weave evokes arid landscapes, the muted gray of Cloud Step mirrors misty stone steps, and the rich red-brown of Crimson Rock draws from rugged cliff faces. Perfect for infusing spaces with a blend of natural authenticity and contemporary design, this series brings the timeless charm of earthy materials to modern interiors and exteriors.
