Innovation to the best...
DFX TECHNOLOGIES

MEMBERSHIPS

Who we are

DFX TECHNOLOGIES, an ISO 9001:2015 certified company Pioneering in Water and Energy Conservation Product Solutions, using Smart Energy Automation Technology, Established in 2009.

We have a dedicated Research and Development Centre putting continuous effort on Solar Energy, Wind Energy, Wireless Sensors and IoT Automation Technology to bring out affordable products for consumer and Industrial applications in the brand of DFX TECH, Aquapro+, and GLOSUN.

We provide excellent after sales service support by dedicated professionals, with different Annual Maintenance models.

We also provide customized Innovative Solutions through Solar Energy Product, Wireless Sensors and IoT Automation based on our client requirements.

OUR VISION

"Our vision is to lead in providing innovative water and energy-saving solutions through cutting-edge technology."

OUR MISSION

"Our mission is to engineer cutting-edge technology that brings affordable solutions to the critical challenges of water and energy conservation."

Our Approved

OUR PRODUCTS & SOLUTIONS

WIRELESS WATER LEVEL SENSOR WITH IOT

Monitoring water resources is crucial for sustainability. Our Wireless Water Level Sensor with IoT technology allows you to track water levels remotely, making water management more efficient and environmentally responsible. Save water, save the planet.

LIGHTING SENSOR AND IOT SWITCHES

Illuminate your surroundings intelligently with our Lighting Sensor and IoT Switches. These smart devices not only enhance security and convenience but also reduce energy consumption by automatically adjusting lighting based on ambient conditions.

SOLAR DC APPLIANCES

We believe in the power of the sun to transform the way we live. Our range of Solar DC Appliances is designed to provide energy-efficient and reliable solutions for everyday needs. From solar-powered LED Lights to air conditioners, we're redefining comfort and sustainability.

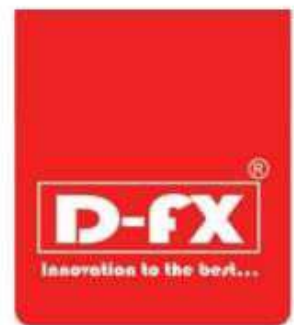

SOLAR PORTABLE POWER BANK

Stay powered up wherever you go with our Solar Portable Power Banks. These lightweight and durable devices harness solar energy to charge your devices, ensuring you're always connected, even in remote locations. Explore the freedom of off-grid energy solutions.

JOIN US ON OUR JOURNEY TO A MORE SUSTAINABLE &
CONNECTED WORLD. TOGETHER,
WE CAN POWER A BRIGHTER FUTURE.
