

Save Water...Live Better...

## A COMPLETE SOLUTION FOR WATER MANAGEMENT AUTOMATION SYSTEMS

## PRODUCT CATALOGUE

[www.mydfxtech.in](http://www.mydfxtech.in)

# Company Profile

DFX Technologies, For The First Time In India Introduce "**Fully Automatic Wireless Water Level Controller**". New Era In Water Level Controllers Using Smart RF & LoRa Based Wireless Sensing Technology. No Wiring, Just Install, Switch On And Forget, No Extra Wiring Is Needed To Be Done From The O.H Tank Unit Sensors Towards The Control Unit. Easy And Quick Installation. Our Other Product Of Wired Water Level Controller, Electronic Solenoid Valve Based Controller And Programmable Based Timer Controller.

**Aquapro+™** Is Registered Trade Mark And Recognized For Its Quality Products. Is One Of The Pioneers In Designing And Developing Products Of:

## Product & Solutions:

- Automatic Wireless / Wired Water Level Controller
- Wireless / Wired Water Level Indicators
- Solenoid Based Wireless / Wired Water Level Controller
- GSM 4G Pump Controller and Monitoring
- Smart LoRa Water Level Controller and Indicators
- LoRa + WiFi Water Level Automations
- Digital Pump Starter Panels

## Model Diagram

## Model - Basic+

### Features:

RF Wireless Best Performance Technology  
Micro Controller Based Fully Automatically  
User Friendly Panel And Magnetic Sensors  
OHT LL And HL With ST Dry Run Available  
Led Indications With Buzzer Sound For Tank Levels  
Weather Resistance And Electric Shock Resistance

### Range:

Long Range - 500mtrs and above  
Mid Range - 300mtrs  
Short Range - 100mtrs

### Suitable Pumps:

Single and Three Phase - Mono Block, Open Well, Jet Pumps

## Model - Classic+

### Features:

RF Wireless Best Performance Technology  
Micro Controller Based Fully Automatically  
User Friendly Panel And Magnetic Sensors  
OHT LL And HL With O.H Dry Run Available  
Led Indications With Buzzer Sound For Tank Current Levels  
Weather Resistance And Electric Shock Resistance

### Range:

Long Range - 500mtrs and above  
Mid Range - 300mtrs  
Short Range - 100mtrs

### Suitable Pumps:

Single and Three Phase - Bore Well, Open Well, Submersible Pumps

## Model - Sumo+

### Features:

RF Wireless Best Performance Technology  
Micro Controller based Fully Automatically  
User friendly Panel and Magnetic Sensors  
OHT LL and HL with Dry Run Available  
OHT LL,ML1,ML2,HL indication Live Monitoring  
LED indications with buzzer sound for Tank Current Levels  
Weather resistance and electric shock resistance

### Range:

Long Range - 500mtrs and above  
Mid Range - 300mtrs  
Short Range - 100mtrs

### Suitable Pumps:

Single and Three Phase - Mono Block, Bore Well, Open Well,  
Jet Pumps, Submersible Pumps

## Model - Prime+

### Features:

- LoRa Wireless Technology
- Micro Controller Based Fully Automatically
- User Friendly Panel And Magnetic Sensors
- OHT LL And HL With ST Dry Run Available
- Led Indications With Buzzer Sound For Tank Levels
- Weather Resistance And Electric Shock Resistance
- Low / High Voltage Protection

### Range:

- Long Range - 1000 mtrs and above
- Mid Range - 500mtrs
- Short Range - 300mtrs

### Suitable Pumps:

Single and Three Phase - Mono Block, Open Well, Jet Pumps

## Model - Indilo+

### Features:

- LoRa Wireless Technology
- Micro Controller Based Fully Automatically
- User Friendly Panel And Magnetic Sensors
- OHT LL, Md1, Md2, HL Level Indications
- Led Indications With Buzzer Sound For Tank Current Levels
- Weather Resistance And Electric Shock Resistance

### Range:

- Long Range - 1000mtrs and above
- Mid Range - 500mtrs
- Short Range - 00mtrs

### Suitable Pumps:

Over Head Tank, Sump Tank, Well etc.,

## Model - Smart+

### Features:

- LoRa + WiFi Wireless Technology
- Micro Controller based Fully Automatically
- User friendly Panel and Magnetic Sensors
- OHT LL and HL with Dry Run Available
- OHT LL, ML1, ML2, HL indication Live Monitoring App
- LED indications with buzzer sound for Tank Current Levels
- Weather resistance and electric shock resistance

### Range:

- Long Range - 1000mtrs and above
- Mid Range - 500mtrs
- Short Range - 300mtrs

### Suitable Pumps:

Single and Three Phase - Mono Block, Bore Well, Open Well, Jet Pumps, Submersible Pumps, Tanker

## Model - Indica+

### Features:

- RF Wireless Best Performance Technology
- Micro Controller based Fully Automatically
- User friendly Panel and Magnetic Sensors
- OHT 4 Level Indication Monitoring
- LED indications with buzzer sound for Tank Levels
- Weather resistance and electric shock resistance

### Range:

- Long Range - 500mtrs and above
- Mid Range - 300mtrs
- Short Range - 100mtrs

### Suitable Tanks:

Over Head Tank, Sump Tank, Well etc.,

## Model - Star+

### Features:

- Wireless Multi Tank Valve Activation Controller
- Micro Controller Based Fully Automatically
- User Friendly Panel And Magnetic Sensors
- OHT LL And HL With Dry Run Available
- Led Indications With Buzzer Sound For Tank Levels
- Weather And Electric Shock Resistance

### Range:

- Long Range - 500mtrs and above
- Mid Range - 300mtrs
- Short Range - 100mtrs

### Suitable Pumps:

Single and Three Phase - Bore Well, Open Well, Submersible Pumps  
Mono Block, Jet Pumps

## Model - GSM+

### Features:

- GSM 4G Wireless Technology
- Micro Controller based Systems
- Timer Controller for Pump ON/OFF
- In built over / under voltages protection
- Single and 3 Phase Preventer
- LED indications with buzzer sound indication
- Weather IP65 and Electric shock resistance
- User friendly Apps for Smart Phone

### Suitable Pumps:

Single and Three Phase - Bore Well, Open Well, Submersible Pumps  
Mono Block, Jet Pumps, Tankers etc.,

# Wired Controller & Sensors

## Basic

### Features:

Micro Controller Based Fully Automatically  
User Friendly Panel And Magnetic Sensors  
OHT LL And HL With ST Dry Run Available  
Led Indications With Buzzer Sound For Tank Levels  
Weather Resistance And Electric Shock Resistance

## Classic

### Features:

Micro Controller Based Fully Automatically  
User Friendly Panel And Magnetic Sensors  
OHT LL And HL With Dry Run Available  
Led Indications With Buzzer Sound For Tank Levels  
Weather Resistance And Electric Shock Resistance

## Sumo

### Features:

Micro Controller Based Fully Automatically  
OHT LL,MD1,MD2,HL Live Indications  
User Friendly Panel And Magnetic Sensors  
OHT LL And HL With Dry Run Available  
Led Indications With Buzzer Sound For Tank Levels  
Weather Resistance And Electric Shock Resistance

## Indica

### Features:

Micro Controller Based Fully Automatically  
User Friendly Panel And Magnetic Sensors  
OHT LL,MD1,MD2,HL indication for Live Water  
Led Indications With Buzzer Sound For Tank Levels  
Weather Resistance And Electric Shock Resistance

## Float Switch Sensors

### Features:

PP based IP65 Float Switch  
1SQ.MM 3 core Cables  
Free From Corrosion and Scaling  
High Quality Materials

## SS & PP Magnetic Sensors

### Features:

PP based IP65 Magnetic Switch  
SS 304 Grade Materials  
0.5 SQ.MM 2 Core Cables  
Switching Time 1,00,000  
Free From Corrosion and Scaling  
High Quality Materials
