Reading Comprehension Exercise 3

Lower Primary Beginner English

Read the passage and answer the questions that follow.

Why Reading is Fun.

Reading is a favourite hobby for many people. It is fun and helps us learn new things. When we read, we can travel to new places with our imagination. We can visit the mountains, forests, or even faraway countries without leaving our home. Books can take us on exciting journeys and help us meet many different characters.

When an author writes about a place, we can imagine being there. If a story is about climbing a mountain, we can almost feel ourselves climbing too! Reading lets us enjoy adventures and dream about new worlds.

Reading is also not expensive. We can buy our own books to keep, or we can go to the library. At the library, there are thousands of books waiting for us to read. Every story gives us a chance to explore, learn, and have fun!
