Areas of Rectangles & Squares

Upper Primary Beginner Maths

Find the area of each shape.

Area of rectangle = length \times breadth
Area of square = length \times length (Squares have equal sides)

$$\begin{aligned} \text{Area} &= 6 \times 9 \\ &= 54 \text{ unit square} \end{aligned}$$

$$\begin{aligned} \text{Area} &= 5 \times 5 \\ &= 25 \text{ unit square} \end{aligned}$$

$$\begin{aligned} \text{Area} &= 3 \times 3 \\ &= 9 \text{ unit square} \end{aligned}$$

$$\begin{aligned} \text{Area} &= 2 \times 10 \\ &= 20 \text{ unit square} \end{aligned}$$

$$\begin{aligned} \text{Area} &= 12 \times 4 \\ &= 48 \text{ unit square} \end{aligned}$$

$$\begin{aligned} \text{Area} &= 6 \times 6 \\ &= 36 \text{ unit square} \end{aligned}$$
