

## Equivalent Fractions

Middle Primary Advance Maths

Shade the second diagram to be the equivalent of the first and then write the correct equivalent fraction in the space provided.

$$\frac{1}{3} = \underline{\hspace{2cm}}$$

$$\frac{2}{5} = \underline{\hspace{2cm}}$$

$$\frac{1}{2} = \underline{\hspace{2cm}}$$

$$\frac{1}{5} = \underline{\hspace{2cm}}$$

$$\frac{1}{6} = \underline{\hspace{2cm}}$$

$$\frac{3}{5} = \underline{\hspace{2cm}}$$

## Equivalent Fractions - Solutions

Middle Primary Advance Maths

Shade the second diagram to be the equivalent of the first and then write the correct equivalent fraction in the space provided.

$$\frac{1}{3} = \frac{4}{12}$$

$$\frac{2}{5} = \frac{4}{10}$$

$$\frac{1}{2} = \frac{4}{8}$$

$$\frac{1}{5} = \frac{2}{10}$$

$$\frac{1}{6} = \frac{2}{12}$$

$$\frac{3}{5} = \frac{12}{20}$$
