Multiples of Numbers

Upper Primary Beginner Maths

List the first five multiples.

Multiples : A multiple of a number is the result you get when you multiply that number by any whole number.

Example: **8**

What are the multiples of 8?
8 16 24 32 40
48 56 64 72 80

Skip counting helps you quickly list the multiples of that number.

1. **4**

2. **7**

3. **9**

4 **12**

5. **10**

6. **6**

7. **11**

8. **3**

Multiples of Numbers - Solutions

List the first five multiples.

Multiples: A multiple of a number is the result you get when you multiply that number by any whole number.

Example:

8 — What are the multiples of 8?

8 16 24 32 40
48 56 64 72 80

Skip counting helps you quickly list the multiples of that number.

1. **4**
4 8
12 16
20

2. **7**
7 14
21 28
35

3. **9**
9 18
27 36
45

4. **12**
12 24
36 48
60

5. **10**
10 20
30 40
50

6. **6**
6 12
18 24
30

7. **11**
11 22
33 44
55

8. **3**
