

Our vision

Our company specializes in providing innovative and customized technological solutions to companies in the financial, retail, industrial, and government sectors. We have a highly qualified and committed team that works to drive our clients' growth and productivity through solutions integration services, training, project management, digital, enterprise, and industrial security, and technology consulting.

Our commitment is to guarantee the satisfaction and success of every project, becoming our clients' strategic partner on their path to operational, administrative, managerial, and executive improvement.

In an increasingly interconnected world, technological solutions help our clients stay at the forefront of innovation. Our goal is to continue growing and expanding our presence in different industrial sectors, always maintaining our focus on excellence and our clients' success.

Business Services & Consulting, S. A.

TO ACHIEVE YOUR GOALS,
MAKE SURE TO
SURROUND YOURSELF WITH
EXPERT PROFESSIONALS

Our team

Maximize your company's profitability through expert software and supply chain consulting. We diagnose, implement, and train your team to ensure success.

Nuestros servicios en BSConsulting

We boost your business profitability with process automation, project management, cybersecurity, and specialized training. We turn technology into a competitive advantage so you can make safe, fast, and effective decisions.

We are here to help you develop strategies to achieve the best business benefits and profitability.

Business Partners

Grupo TRT Guatemala - Credit Card -

We work on improving technological systems, which means we often need to train on different technologies. BSC, S.A. consultants helped us see the big picture with specialized tools and experience.

Our clients

Integral your SME Banking El Salvador - Fraud Prevention and Business Continuity Coordination -

We train members of the Board of Directors and company executives, focusing on cyber risk awareness.

BANTRAB Guatemala - Shareholders -

As a key internal area at Banco de los Trabajadores, it is necessary to automate our processes. BSC, S. A. helped us make technological improvements so that our shareholders can use them, improving service times.
