THESIS AND DISSERTATION SUPERVISION AND JUDGEMENT

- Main Supervisor on Master Thesis submitted by Rady Mohamed, Al-Azhar University, 2018. Title: Comparative study of mechanical properties of conventional cobalt-chromium and poly ether ether keton thermoplastic removable partial denture.
- Associate Supervisor on Doctoral Thesis submitted by Mohamed Abbas, Al-Azhar University, 2017. Title: Clinical and radiographic evaluation of implant-retained overdenture with different attachments systems.
- Main Supervisor on Master Thesis submitted by Gamal Mokhtari, Al-Azhar University, 2018. Title: Evaluation of some properties of acrylic resin denture base modified by incorporation of silver nanoparticles and *Lowsonia inermis*.
- Associate Supervisor on Master Thesis submitted by AbdAlrahman Allam, Al-Azhar University, 2018. Title: Evaluation of acrylic resin denture base modified with zirconium oxide nanoparticles.
- Main Supervisor on Master Thesis submitted by Karim Ibrahim, Al-Azhar University, 2018. Title: Evaluation of some properties of acrylic resin denture base modified by incorporation of titanium nanoparticles.
- Main Supervisor on Master Thesis submitted by Mohamed Arafa, Al-Azhar University, 2018. Title: Dimensional stability and surface roughness of new autoclavable vinyl polysiloxane impression material.
- Main Supervisor on Master Thesis submitted by Mohamed Ali, Al-Azhar University, 2018. Title: Clinical evaluation of different occlusal schemes in completely edentulous patients.
- Associate Supervisor on Master Thesis submitted by Ahmed Hashem, Al-Azhar University, 2017. Title: Clinical and radiographic evaluation of ocular prosthesis fabricated by 3D printing technology.
- Associate Supervisor on Doctoral Thesis submitted by Ahmed Ragab, Al-Azhar University, 2017. Title: Clinical and radiographic evaluation of implant-supported overdenture of the bar and extended bar attachment.
- Associate Supervisor on Master Thesis submitted by Amr Ammar, Al-Azhar University, 2018. Title: Clinical evaluation of retention of implant-supported overdenture with two types of low profile attachments.

- Associate Supervisor on Master Thesis submitted by Mahmoud Khalifa, Al-Azhar University, 2018. Title: Effect of different denture cleansers on some physical properties of two thermoplastic denture base.
- Associate Supervisor on Master Thesis submitted by Mohamed Nasr, Al-Azhar University, 2018. Title: Retention and stresses induced in implant-supported overdenture with different inter implant distance.
- Associate Supervisor on Master Thesis submitted by Mohammed Abd-Elrahman Ibrahim Ali, Al-Azhar University, 2012. Title: Clinical evaluation of retention and masticatory efficiency of a thermoplastic denture base material.
- Associate Supervisor on Master Thesis submitted by Mohamed Kassem Ahmed, Al-Azhar University, 2014. Title: Comparison between immediate and delayed loaded mid-symphyseal single implant-retained overdenture.
- Associate Supervisor on Master Thesis submitted by Amr Ahmed Elbaz, Al-Azhar University, 2012. Title: Role of mucosal thickness on stress distribution of implants-retained mandibular complete overdenture.
- Associate Supervisor on Master Thesis submitted by Esmail Ahmed Mohammed Esmail, Al-Azhar University, 2012. Title: Clinical evaluation of the effect of different impression techniques on mandibular implants-retained overdenture.
- Associate Supervisor on Doctoral Dissertation submitted by Hassan Abohashem Hassan Elsayed, Al-Azhar University, 2013. Title: Masticatory Efficiency of Canine Guidance Occlusion and Bilateral Balanced Occlusion in Thermoplastic Complete Dentures.
