

# NARCISSISM AND THE INNER MAN OUTLINE

## A Comprehensive Study of the Psychological and Spiritual Dynamics

**Subtitle:** *Understanding the Mind Set on Flesh: When Self-Righteousness Becomes a Stronghold*

---

### BOOK PURPOSE & THESIS

This book explores narcissistic personality patterns from both psychological and biblical perspectives, examining how God-given personality traits can become distorted into destructive strongholds when the mind is "set on the flesh" (Romans 8:5-6, NASB). Through clinical research, biblical analysis, and practical application, we'll uncover the spiritual battles that rage within narcissistic individuals and their impact on families and communities.

**Central Thesis:** Narcissism represents the ultimate manifestation of the carnal mind—a stronghold where self has become god, creating both internal torment and external devastation that can only be overcome through genuine spiritual transformation.
