PROFILE SUMMARY

Passionate and enthusiastic about cyber security as well as network security, I have created and built an impressive home lab. A creator, builder, and quick learner, I have a hunger to tinker and explore all things tech. As a supervisor, I have obtained beneficial and relevant experiences working with clients while also furthering my knowledge in cyber and network security.

IT EXPERIENCE

MIGRATING OPERATING SYSTEM FROM HDD to SSD PROJECT   February 2023
- Complete dismantled pc and put it back together with SSD plugged into power supply.
- Formatted the SSD.
- Cloned the HDD to SSD and changed boot order in bios.

SPED UP AGING PC AFTER SSD INSTALL PROJECT
February 2023
- Increased ram to 8GB to speed up pc
- Changed window defender rules and where it scans
- Rebuild window search database

SET UP FIREWALL I.E. PFSENSE WITH VIRTUALBOX AND KALI LINUX FOR PENETRATION TESTING PROJECT
January 2023
- Setup Ubuntu Linux VM.
- Setup pfSense VM but before made sure to change network setting between the VMs to be on the same ip network.
- Finished configuration through Ubuntu making sure to allow certain traffic.
- Setup Kali Linux VM and made sure to be on the same ip network.
- Did some penetration testing to see if I can bypass the firewall.

PC BUILDING PROJECT
November 2016
- Thoroughly researched and purchased all necessary components.
- Viewed helpful tutorials.
- Troubleshooted issues as I went along and finally, built an entire PC.

CERTIFICATIONS

CompTIA Security+   Completed
Online Certification

Cisco CCNA   In Progress
Online certification

WORK EXPERIENCE

Regie Alili

SUPERVISOR   Riverview Restaurant | Kiel, WI
- Manage over 10 employees and foresee all tasks that need to be managed and taken care of.
- Oversee all transactions and funds accordingly.
- Managed and satisfied the clients need and wants
  with what they pleased in a timely manner between 50- 100 customers a day.

ACHIEVEMENTS

US CYBER CHALLENGE EASTERN CAMP   2021
- Out of thousands of students, I was extended the offer at a limited cybersecurity camp in which I attended for a week at a Department of Homeland Security sponsored camp. We were taught by the most talented instructors over a five-day period where we furthered our knowledge in the intrusion section, penetration testing, as well as window and smartphone forensics. We utilized popular security tools and learned to threat hunt using packet analysis.

US CYBER CHALLENGE COMPETITION   2021
- At the end of the camp I completed a " Capture the flag" challenge. I participated in the prestigious US Cyber Challenge camp. Out of the 25 teams that competed, my team was one of six teams that went to nationals. In October, we competed in another "Capture the flag" challenge and presented on a security issue. Overall, we placed second.

EDUCATION

Bachelors of Science in Cyber Security and Information Technology | Roosevelt University, Chicago, IL | 2017 - 2021
