THE UPPER LIMB COURSE

Welcome Note

Dear Esteemed Faculties, Delegates, and Sponsors,

It is with great pleasure and enthusiasm that we welcome you to the 2nd International Arthroscopy Conference here in the vibrant city of Bhubaneswar on the 24th of May, 2025. **This year's theme, "Shoulder and Elbow Injuries: Innovations in Arthroscopy and Arthroplasty of the Upper Limb,"** promises to bring together world-renowned experts, cutting-edge research, and the latest advancements in the field of orthopaedics, particularly focusing on shoulder and elbow injuries and their management.

We are honored to host a distinguished array of National and International Shoulder Faculties who will be sharing their invaluable knowledge and expertise. Their insights will undoubtedly provide new perspectives on the diagnosis, treatment, and rehabilitation of shoulder and elbow conditions, enriching the professional experience for all participants.

We extend a heartfelt welcome to all Orthopaedic and Arthroscopic Surgeons, who have traveled from all corners of the globe to be part of this important event. Your participation, exchange of ideas, and commitment to advancing our field is truly inspiring. We hope that you find this conference an excellent platform for collaboration, learning, and networking.

We are also deeply grateful to our Sponsors, whose generous support has made this event possible. Your contributions enable us to continue to provide such a high-quality experience for our delegates and faculties alike.

As we gather to enhance our knowledge and skills in Arthroscopy and Arthroplasty of the Upper Limb, we are confident that this conference will set the stage for groundbreaking discussions, practical demonstrations, and long-lasting professional relationships. We look forward to an inspiring and productive day of learning, exchange, and growth.

Thank you for being part of this exceptional event.

Regards,

Dr. Sarthak Patnaik

AIM OF THE CONFERENCE

- *To explore advancements in shoulder arthroscopy, focusing on precision diagnostics, minimally invasive techniques, and enhanced surgical outcomes.*
- *To highlight innovations in shoulder arthroplasty, emphasizing joint reconstruction, restoration, and long-term functional recovery.*
- *To foster interdisciplinary collaboration among orthopedic surgeons, researchers, and sports science experts.*
- *To provide a platform for sharing clinical expertise, case studies, and best practices in shoulder care.*
- *To bridge the gap between arthroscopy and arthroplasty, addressing the full spectrum of shoulder disorders from injury prevention to post-operative rehabilitation.*

WHO CAN ATTEND?

**Arthroscopic
Surgeons**

**Orthopaedic
Surgeons**

**Senior Residents:
Orthopaedics**

**Post Graduate:
Orthopaedics**

REGISTRATION DETAILS

NON- RESIDENTIAL PACKAGE

CATEGORY	EARLYBIRD (UPTO 31ST MARCH)	REGULAR (1ST APRIL TO 30TH APRIL)	REGULAR (1ST MAY TO SPOT)
ARTHROSCOPIC & ORTHOPAEDICS SURGEONS	INR 2000/-	INR 2500/-	INR 3500/-
POST GRADUATE	INR 2000/-	INR 2000/-	INR 2000/-

RESIDENTIAL PACKAGE

ACCOMODATION	CHARGES (GST INCLUSIVE)	NIGHTS
SINGLE ROOM	INR 7500/-	1 NIGHT (23RD MAY)
SINGLE ROOM	INR 15,000/-	2 NIGHTS (23RD-24TH MAY)
TWIN SHARING	INR 4500/-	1 NIGHT (23RD MAY)
TWIN SHARING	INR 9,000/-	2 NIGHTS (23RD-24TH MAY)

PREVENT INJURY, PROLONG CAREER

Arthroscopy is a minimally invasive surgical technique used to diagnose and treat joint problems. It involves making small incisions in the skin to insert a camera and surgical instruments. This allows the surgeon to view the joint and perform the necessary procedure with precision and control. Arthroscopy is commonly used for the treatment of knee, shoulder, hip, and ankle injuries.

Arthroscopy is a minimally invasive surgical technique used to diagnose and treat joint problems. It involves making small incisions in the skin to insert a camera and surgical instruments. This allows the surgeon to view the joint and perform the necessary procedure with precision and control. Arthroscopy is commonly used for the treatment of knee, shoulder, hip, and ankle injuries.
