AIMS AND SCOPE

The international journal of language learning and applied linguistics world performs as a platform for the new scholars to share their insights with other scholars in the form of original papers.

The international journal of language learning and applied linguistics world is a double-blind peer-reviewed international journal dedicated to promoting scholarly exchange among teachers and researchers in the field of language teaching and applied linguistics. Papers submitted to the journal will immediately be sent to two related reviewers who are responsible to provide feedback on the content and the language use.

The journal is published monthly in online and print versions. The scope of the journal includes, but not limited to, the following fields:

Theory and practice in English
Language teaching & learning
Teaching English as a second or foreign language
Applied linguistics
Discourse studies
Syllabus design
Language learning problems
Computer assisted language learning
English for specific purpose
English for academic purpose
Language teaching & testing
Translation studies
