

Flags of the American Civil War

Confederate flags varied somewhat in size and design throughout the war, despite efforts to maintain a certain standard and style. I have therefore made an assumption by scaling the flags to 4 feet.

The Union infantry flags are scaled assuming an original depth of 5ft 8ins-6ft. Cavalry flags are scaled in proportion.

If the scales are not to your satisfaction feel free to do some simple maths and scale them in your print settings to suit. This may be necessary anyway as the pole sizes may vary according to figure manufacturer.

It is my intention to add to the collection in the very near future. I am aware that there are many specific regimental flags that I have not yet completed. I also intend to add the Union divisional and brigade flags in due course. Check for updates on my blog www.thesentinelhub.co.uk

Let me know if there are any specific flags you would be interested in me doing, just drop me an email via my blog.

Enjoy the flags.

Regards,

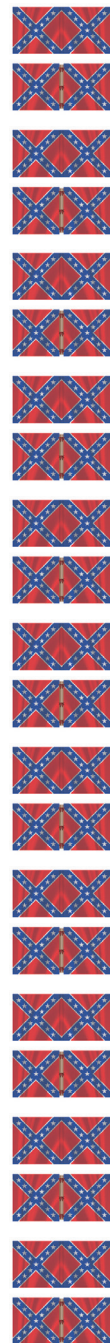

Rich
