

## THE TRUTH about Masks

Many patients asked me “should I wear a mask?” The answer was very clear and easy; just follow the CDC recommendations. Unfortunately, those recommendations kept changing and became very confusing for all of us. The role of masks in preventing viral infection has been a very controversial topic over the last couple of years as it has become very political.

To understand the issues related to the use of masks in infection prevention we need to learn about how masks were used before the pandemic. Every reference and medical textbook taught us that masks are effective for “droplet” infections, but useless for “airborne” infections. Since the pandemic of the Spanish flu in 1918 and until May of 2020, all the studies done in those 102 years, failed to prove that there is any role for the masks to prevent the spread of the airborne respiratory flu virus. The New England Journal of Medicine stated in an editorial, dated 5/21/2020, that “Expanded masking protocols’ greatest contribution may be to reduce the transmission of anxiety”. As the Covid-19 virus was closely related, in size and mode of transmission to the flu virus, the Surgeon General, the CDC, Dr Fauci and the WHO said that masks will be useless for the public to prevent the spread of the virus. Masks were rarely used by the peak of the first wave of the virus.

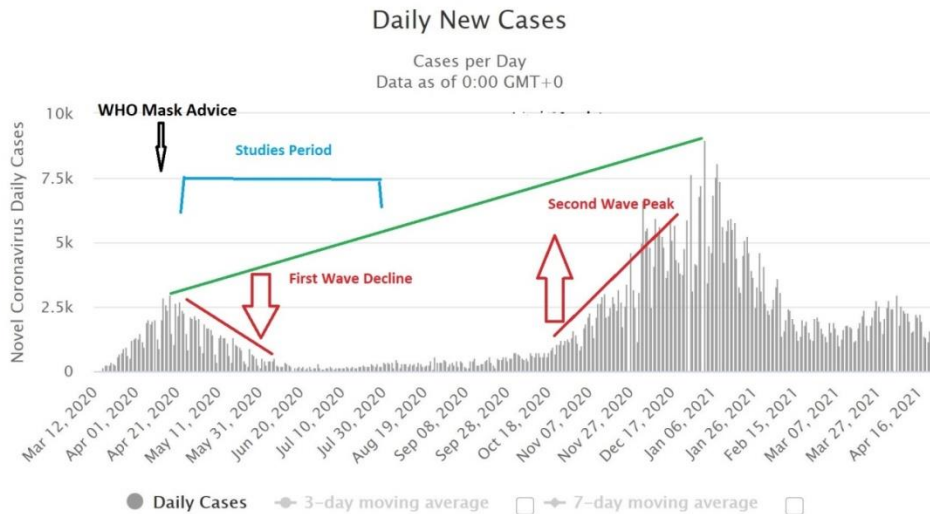

By the spring of 2020, the media noticed that President Trump does not like to wear a mask and hence the mixing of politics and medicine evolved. **On April 6, 2020, the Chinese controlled WHO issued a mask advice claiming, “that it is important only to prevent infected persons from viral transmission by filtering out droplets, but it is unimportant to prevent uninfected persons from breathing virus-bearing aerosols.”** Soon after, there was a barrage of studies mostly by Chinese scientists followed by others referring directly or indirectly to how China controlled the spread of the virus by their use of masks? By the summer of 2020 the head of the CDC, Dr Redfield, testified to the US Congress while waving a mask in his hand stating that a mask can prevent the spread of the virus better than a vaccine! Suddenly masks became a fact of life that no one can dispute their validity. Both liberal and conservative media agreed with no doubt that masks save lives. Being deceived over the years by following some misleading advice by highly publicized randomized controlled clinical studies published by the most prestigious medical journals, I learned to look at every study with a grain of salt before using its recommendations on my patients. Finding out that the studies and teachings over the previous 102 years were suddenly obsolete; I became suspicious about the validity of those new studies, thus I needed to review as many of those studies so I can evaluate their reliability to give my patients an informed advice.

Those studies can be grouped into 3 different categories.

**The first category is the “Model Studies”** which depends on mathematical models and equations that predicts a certain outcome. Throughout the pandemic we learned that those kinds of studies were always unreliable and wrong in their predictions. You cannot rely on those studies to recommend any kind of therapy or intervention. It is a waste of time to even analyze any of those studies; probably astrologists have a better record in their predictions!

The **second category** is the **“Observational Studies”**. Those studies compare the rate of infection among people who wear masks versus those who do not. The main thing that I noticed about those studies was that [they were performed at the tail end of the first wave](#). Why is this important? If the virus was fading away either way, then it will be extremely difficult to credit the decline in the infection rate whether it was due to the masks or due to a fading viral wave.

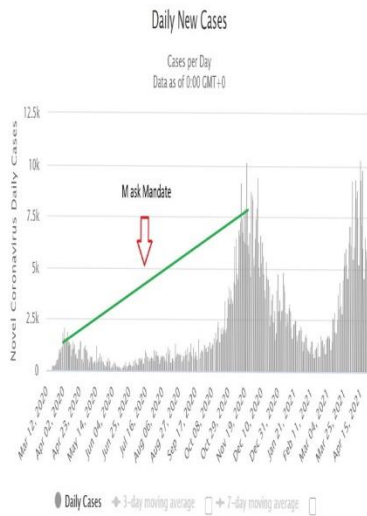

### Daily New Cases in Massachusetts

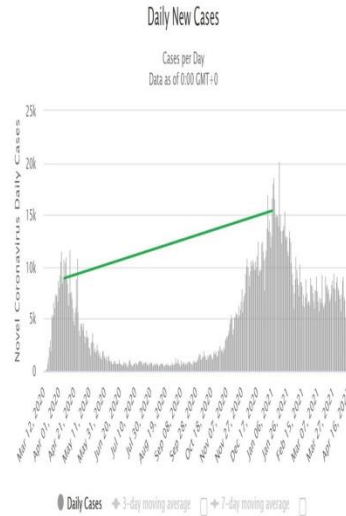

**Fig 1 Sequence of masks introduction, studies and effects (Graph Source worldometers.info)**

I noted that none of the studies were done during the second viral wave peak. As I looked more into the trends of the curves in different states and other countries that mandated the masks, I was astonished to find that the daily infection rates increased by a range of 100% to 1000% following the masks mandates. Here my memory took me back 40 years ago when we were debating whether to wear a seat belt or not. Once everyone noticed that the rate of injuries and death related to car accidents declined there was no argument, and no one is questioning the importance of wearing a seat belt. Now 40 years later we are told to put the mask on so we will not get infected or infect others or contribute to their or our death. We all trusted our health leaders, and everyone had his mask on. Few months later and you look at the curves and notice that the infection rate and number of deaths went up exponentially, yet you notice that the people are holding on to their masks and will not let go off as if they are their life savers. You pause and start wondering? What about the logic of “cause and effect”? What is going on? You will also notice that this is not just happening here, the same phenomenon is happening almost all over the world. See Fig 2.

I kept looking for an explanation for this phenomenon and the only answer is one word “FEAR”. Logic tells us that for every action there is a reaction, so for example if a parent notices a leaky faucet and he asks his kid to turn the faucet off by turning it to the left; if the faucet pours more water, a good parent will say, my bad, let us try turning it to the right. An abusive parent will tell his kid you are so weak and fit for nothing, just put both hands on the faucet and keep turning harder to the left. A scared kid will submit without questioning. Exactly as they told us “Just put two masks on and make sure they are tight fitting on your face”, sounds familiar? Amazing is the power of FEAR, it can even diminish the smartest of the smart and the fittest of the fit into scared helpless kids who lost logic and blindly followed senseless commands!!

During the peaking of the second wave, one of the researchers was asked on TV, why don't you do a randomized controlled study to confirm the validity of those observational studies? His answer was it will be immoral to do this kind of study and subject those who will not wear the mask in the study to death by this deadly virus. He was so sure of himself same as the complicit CDC which intentionally never did a validating study. Early in the pandemic Fauci said that masks will not help and may hurt yet they never wanted a second look at the validity of their mask recommendations; it does not fit their agenda. Do we really need this kind of study and pay for it hundreds of thousands of dollars? No, we do not, as we already have all the unbiased data available, and we just need to analyze it. A couple of my colleagues from Egypt and Pakistan, informed me that almost nobody was wearing masks in those countries, as most of the people are poor, and they have to choose between buying a mask or putting a loaf of bread on their dinner table; the choice was clear. So let us look at how those countries did as compared to the western countries with mask mandates during the second wave of the virus.

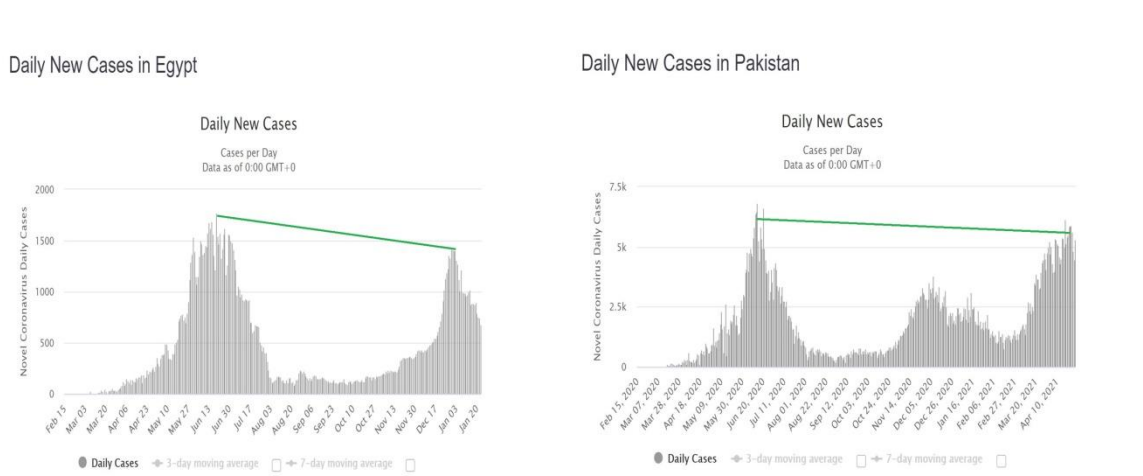

Fig 3 Countries with No Mask Mandate

Source: <https://www.worldometers.info/coronavirus/country>

You look at those curves and you notice that the countries that had no mask mandates enforced fared much better as their second wave had fewer daily infections compared to their first wave. Those countries with no mask mandate had their daily cases lower by an average of 10% in the second wave while the countries with mask mandates had higher rates in the second wave peaking between 100 -1000%. They will say, you cannot trust the data from those developing countries, but the fact is that those countries had very limited testing capability during the first wave, and they had significantly better testing ability by the second wave. Thus, if there were any errors in the data it would have shown that the decline is significantly more than the average of 10%. Either way we are not looking at absolute data, we are evaluating the trends and those trends are clear, they speak for themselves. The table below displays that the combined population of both Egypt and Pakistan matches the population of the USA yet combined they had about 30,000 deaths while we had 585,000 deaths by same time.

Country	Total Cases	Total Deaths	Death/Million	1Case/X People	Population
USA	32,736,373	585,138	1759	10	332,000,000
Pakistan	784,108	16,842	75	286	225,000,000
Egypt	220,658	12,959	125	471	104,000,000

**Table 1: Comparative daily cases and mortality in USA, Pakistan, and Egypt**

So essentially those scientific observational studies are nothing but a snapshot during a brief period of the pandemic allowing them to advance certain political agenda as they avoided looking at the whole picture or revisiting the validity of their findings. They disregarded the massive increase in the number of cases in the countries with the mask mandates and they disregarded the comparison to other countries with no mask mandates. They are behaving like a football team rushing a play before the opponent’s coach throws a challenge flag as they know that they will lose the challenge. But **this is not a game**, there are human lives at stake here. Do you need any evidence clearer than that when you compare 300 million people who used masks vs another 300 million who never used masks, both groups were exposed to the same virus, and yet you find that mask use contributed to several folds of increased infection and death? The evidence is overwhelming you don’t need Fauci, or another Ivey league crook, or the CDC or the WHO to tell you what you need to do! Interestingly enough I found a single article by a German physician, Zacharias Fogen, MD who cared and analyzed the data by the CDC during the peaking of the second wave in Kansas State comparing counties that mandated masks vs. those which did not and he concluded that **“The most important finding from this study is that **contrary to the accepted thought that fewer people are dying because infection rates are reduced by masks, this was not the case. Results from this study strongly suggest that mask mandates actually caused about 1.5 times the number of deaths or ~50% more deaths compared to no mask mandates.**”** What do you expect when you have 100% to 1000% increase in the infection rate during the second wave following the mask mandates! This means that for every 3 loved ones that we lost, one of them would have been still alive. The CDC never cared to

investigate those findings! It is their data and their duty to analyze it, they knew what it revealed but they **buried it** as it doesn't fit their agenda. What a disgrace! The CDC has a lot of blood on its hands. **As of August 2022, we had 1,050,000 Americans dead; 350,000 would be still alive today if we had no mask mandates, thanks to the corrupt CDC and a power hungry leadership.**

The same goes for the WHO, they are the ones that triggered this nonsense of mask use all over the world, their job was to follow up on their recommendations by comparing countries that used masks vs countries that didn't; they knew the result but they kept silent, it didn't fit into their evil scheme and it will not please their master, the CCP. By their silence they probably contributed to the death of millions of people. What a shame and it is scarier when you see how those health organizations are working in harmony covering up their evil actions. **WHY??** For each 1 Pakistani or Egyptian dead there were 20 Americans dead; **WHY?** Do they have better hygiene? Better health care? Better immunity? But the CDC, Fauci and WHO do not believe in natural immunity so you go figure it out as no one can ask any logical questions? Those criminals at the CDC never studied or warned us about the potential dangers of wearing masks; they were busy preparing the guidelines for "Chest Feeding" by the trans-genders while sacrificing the lives of innocent Americans achieving their evil goals. What a shame!! The evidence is overwhelming but how can this happen? You place a barrier to block the virus from attacking you or your loved ones, yet you and your loved ones end up being more vulnerable for infection and even death?? I will answer this question when we learn about how the virus is transmitted and why masks use enhances its spread leading to a higher death rate; this will be discussed in the third and last category of studies.

**The third category is the "Mode of Transmission studies".** Every study assumed that the virus is transmitted by droplets, thus we learned how masks can block the droplets, we learned how surgical masks are better than cloth masks, we learned how far a droplet can travel and we saw those amazing videos of how droplets travel in slow motion; they looked so impressive. We also learned about that amazing study when they placed droplet producing machines on every seat of a plane and they covered each of them with a mask; they were able to prove that a mask will block the transmission of the virus in the plane with no doubt. This study was so impressive to the extent that flight attendants became the rulers of the skies; they can even kick out a family with a 2-year-old toddler who is refusing to keep his mask on. What is more puzzling is that none of the passengers stood up for this baby, they were all scared from a maskless baby! The CDC stated that the virus is transmitted by droplets and on surfaces, and then they said it is only transmitted by droplets and not transmitted on surfaces. Then they said it is transmitted mostly by droplets and "very small droplets" or aerosols that can be carried in the air! They said that those "very small droplets" are highly infective thus we should not sing or listen to loud music as this will make us speak loudly and produce more of those highly infective "very small droplets". Fauci and the CDC in harmony with the WHO almost censored the use of "airborne" term while insisting that it is a droplet transmission virus. Despite receiving a [statement from 239 physicians, scientists, physics professors, epidemiologists and virologists stating that this virus is an airborne virus](#), they still denied! **WHY?** When they claim that an airborne virus is transmitted by droplets, they will make you scared to touch any surface, scared to be near

anyone and in spite of the toughest precautions that you take, you will get infected because it is an airborne virus. Those measures will never protect you no matter how vigilant you are, thus you end up being scared, paranoiac, hypochondriac and even afraid to get near your kids or hug them. They crushed your soul to control your life.

[Don Milton, MD, DrPH](#), professor of environmental health at the University of Maryland and expert on the aerobiology of respiratory viruses, also traced the origin of misunderstanding....

"There is a deeply held belief in much of the infectious disease professionals, that if you use the word 'airborne,' you will scare people and then they will freak out and not do anything that you want them to do," he told Medscape.

**So it was never about controlling the virus, it was all about controlling the people and making them do anything they want them to do.**

Let us try to see if the Covid-19 behaves like other viruses that are known to be droplet transmission viruses. The table below shows MERS, and Ebola viral infections which are deadly and known to be droplet infections, it also shows SARS that have limited airborne activity.

Observing the spread of those different Infections since their existence will give us the following conclusions:

- Total countries affected never exceeded 30 countries at any time for SARS, MERS and EBOLA , while Covid-19 reached every country in the world, 196 countries.
- Total infections from SARS, MERS and EBOLA averaged 20,000 infections in combined total observational period of more than 60 years, while Covid-19 infected 160,000,000 within 16 month.
- Total deaths from SARS, MERS and EBOLA averaged less than 7,000 deaths in the same total observational period of 60 years, while Covid-19 caused the death of more than 3,000,000 within 16 month
- Total cases reaching the USA were less than 50 cases including few cases that were evacuated from other countries to be treated here. All those cases were reported within the same total periods of observation for SARS, MERS and EBOLA, while Covid-19 resulted in 32,000,000 cases in the USA within 16 month
- SARS-COV1 has a limited airborne capability thus its spread was more than EBOLA and MERS

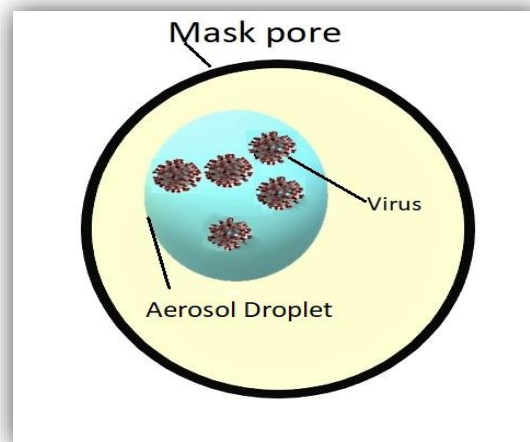

Disease	Countries affected	Total infections	Total death	Transmission mode	Duration of observation	Number in USA
SARS (SARS-COV1)	29	8,096	774	Droplet/weak airborne	10 years	33
MERS (MERS-COV)	27	2,589	940	Droplet	11 years	2
EBOLA (EBOV)	7	9,216	4,555	Droplet	41 years	4 + 7evacuated
Covid-19 (SARS-COV2)	196 (every country)	158,816,716	3,202,419	???	16 month	31,876,948

Table 2: Comparative evaluation of modes of viral transmission

It is clear from the above table that Covid-19 is transmitted differently than the other 3 viruses that are transmitted mostly by droplets. There is no doubt that Covid-19 is transmitted by airborne transmission, which is the major factor of how it spreads, a third grader can figure this out, you do not need 300 scientists to prove that; it is just common sense! Also, by looking at that table you can figure out that SARS-COV1 limited airborne function was markedly boosted or “gained function” at Wuhan lab resulting in the highly infective and deadly airborne virus Covid-19 (SARS-COV2). Thus a droplet transmission virus with limited airborne capacity was boosted to have superior airborne capability. **However, since 2003 the WHO labeled SARS-COV1, with its limited airborne activity, as an airborne virus. “SARS is an airborne virus and can spread through small droplets of saliva in a similar way to the cold and influenza. It was the first severe and readily transmissible new disease to emerge in the 21<sup>st</sup> century and showed a clear capacity to spread along the routes of international air travel.**

*Appendix A*

Surgical and cloth masks will never protect from an airborne viral infection, and this is a proven fact. The reason for that is the virus size is 0.1 micrometer; compare that to the smoke particles from a cigarette or burning wood that measure about 0.5 micrometer, you will notice that the virus particle is 1/5 a smoke particle. If you put your mask on and you can smell a cigarette smoke or burning wood that means that those smoke particles which are 5X the size of the virus are crossing freely through the mask with no restriction. So relatively speaking the virus will pass through the holes of the mask like a motorcycle zooming through a 4-lane highway with no restrictions. The mask will never prevent the virus from going in or out through it. Only a **well fitted N95** mask may act as a barrier and nothing else can, the reason for that is the smaller size of the pores in those masks.

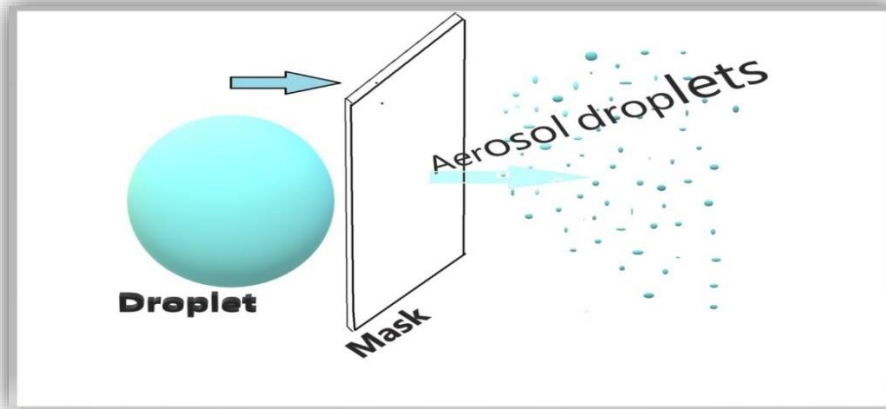

**Fig. 4 Relative sizes of a surgical mask pore, compared to aerosol droplet and Covid-19 virus**

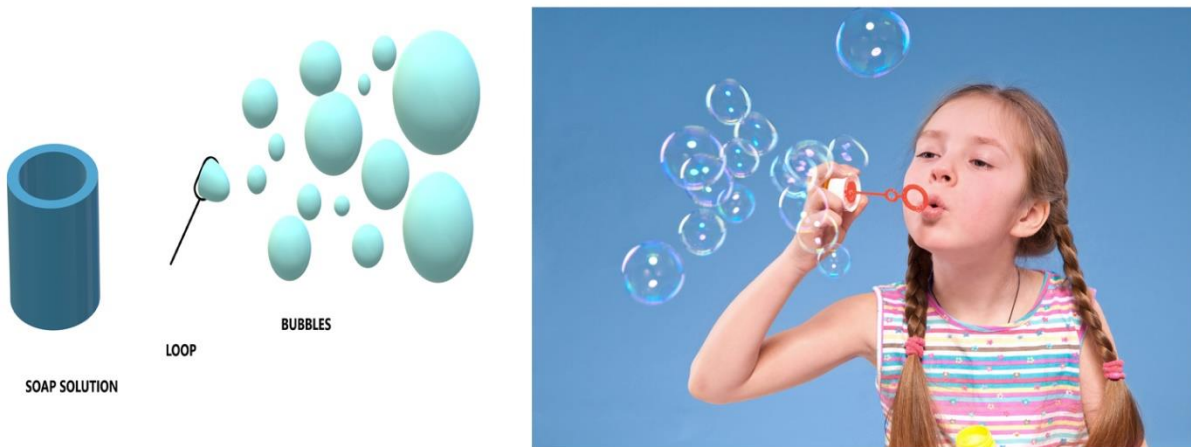

The Lancet editorial of December 2020 dealing with mode of infection by Covid-19 stated that **“pathogens are most commonly found in small particle aerosols, which are airborne and breathable. Aerosols carry more of the virus and can penetrate deeper into the lung tissue than droplets, which are too large to reach the lower respiratory tract.”** It is very important to understand the meaning of this fact and how it contributed to the increased spread and increased morbidity and mortality of the

virus. When the virus is carried by aerosol it is easier for it to penetrate deeper into the lung tissues and start a severe infection there; on the other hand when the virus is carried by droplets it get trapped in the linings of the nose and the pharynx before it can reach the lungs and this will give the body a chance to fight it before reaching the lungs.

**Fig. 5 Diagram displaying how a mask aerosolizes the droplets of an infected person allowing most of the virus to be aerosolized, and be airborne putting it in its most infective form, thus transforming a spreader into a super-spreader. This is the 2<sup>nd</sup> Gain of Function**

**Fig. 6 Diagram displaying how a Loop produces Bubbles from a Soap solution, taking away the loop will produce least bubbles same as taking away the mask will produce least aerosolized droplets and hence least infections.**

As displayed in the above diagrams a droplet will be blocked by a mask but air being forced through the mask while breathing, will break down this droplet into tiny aerosols which can pass through the holes of the mask. This aerosol will be airborne, thus carrying the virus in its

most infective form; **the mere conversion of an infected droplet into thousands of infected aerosols is nothing but a second gain of function**. It is like converting a single bullet aimed at a single bird on a power line into tens of pellets from a shotgun that can hit multiple birds on that power line. All this happens when exhaling through the mask and when you inhale, the trapped infected drops on the inner surface of the mask will release infected aerosol that will go directly into the lungs of that patient making the infection more severe and deadly. **The 1st Gain of Function was achieved at Wuhan while the 2nd Gain of Function, which is several folds more potent, is being achieved at the tip of your nose!!**

When you have all the facts presented to you it becomes clear by looking at the whole picture that you were deceived and lied to. Knowing what I know now and watching how people are frightened and scared to the extent that they have stopped thinking and are manipulated like a herd of sheep led by the drumbeat of a wolf; I sometimes feel that I am living a nightmare in an episode of “The Walking Dead” with lots of zombies swarming around me aimlessly firing guns all over the place and babbling “I am protecting my loved ones!” I feel that I want to scream back at them “you are not protecting your loved ones, you are killing them”, but I know if I do that, I will get the attention of those zombies, and they will aimlessly point their guns at me and destroy me and my loved ones.

Remember what the WHO claimed about masks, “that it is **important only to prevent** infected persons from viral transmission by filtering out **droplets** but it is **unimportant to prevent** uninfected persons from breathing **virus-bearing aerosols**”: what an oxymoron they were telling you that by wearing the mask you will protect your loved ones because you will block the droplets from infecting your loved ones because Covid-19 is a **droplet infection** but you, and your loved ones, will be infected because Covid-19 is an **airborne infection**. **They intentionally hid the fact that the virus spreads by aerosols while surreptitiously, they didn’t tell you that the mask will not just hold the less infectious droplets but it will aerosolize them through the mask putting the virus in its most infectious form as it will penetrate deeper into the lung making the infection significantly worse while extending its reach by tens of feet, leading to a 2nd Gain of Function by turning every mask wearing infected spreader into a super spreader.** They were telling you with a straight face that **masks will relieve your anxiety while you are delivering the virus in its most deadly form to your loved ones!** Just put your mask on and breath into a mirror you will see the aerosolized mist on the mirror, this mist carries the virus in its most deadly form. A person with marginal immunity, if he gets infected by droplets, he will have a better chance fighting the virus as it will be trapped in his nose and pharynx but if he is infected by the aerosol, his chances of survival are significantly lowered as the virus can go directly deep into the lung causing significant damage before his marginal immunity can react. Those con artists put the effort to tell you to stop singing “Happy Birthday” because the letters B and P stand out as the biggest aerosol spreaders! but they never analyzed the aerosol going out through the mask, it never fit their agenda. Beam me up Scotty! **A mask to the virus is nothing but a loop to a soap solution; the more air you blew through them, the more they spread around.** That’s no rocket science; a 6<sup>th</sup> grader can figure this out. Telling you this fact

will not fit their scheme; the vaccine salesmen want to meet their highest quota, they don't give a damn about how many will lose their lives, the more the better to advance their cause! **"In their greed these teachers will exploit you with fabricated stories" 2 Peter 2:3.** Being fearful and desperate to protect our loved ones the whole world believed those "fabricated stories" while the corrupt medical leadership that knew the real facts kept advancing those lies to affirm their grip and control over the people and advance their own agendas while stuffing up their wallets.

Do we need a better proof other than "Mr. Science", "Mr. Infectious Disease", Dr Fauci himself who cancelled Xmas, zoomed all meetings, stopped shaking hands, quadrupled vaccinated and double masked with a well fitted N95 and a designer mask; yet he got infected!!! Dr Fauci, I hope you learned something about an AIRBORNE VIRUS. You can run but you can never hide from an airborne virus, even in the White House basement! Remember "The **wind blows where it wishes**, and you hear the sound of it, but you do not know where it comes and where it goes." John 3:8. Guess what! "Mr. Infectious Disease" was infected again **he couldn't "put a lid on it" for the 3<sup>rd</sup> time**, "Mr. Baseball," the **MVP of the Swamp League**, you know that 3 strikes and you're out and that seems to be the only thing you ever learned. "Mr. Science" don't you know to never put your finger in your nose then rub your eyes? Dr Fauci should you wash your hands for 30 seconds instead of 20? ..**NO**.. Maybe you should keep your gloves and goggles on all the time?... **NO**, that's not it, because, "The answer, my friend, is blowin' in the wind"!

["And how many ears must one man have](#)

[Before he can hear people cry?](#)

[Yes, and how many deaths will it take 'til he knows](#)

[That too many people have died?](#)

[The answer, my friend, is blowin' in the wind](#)

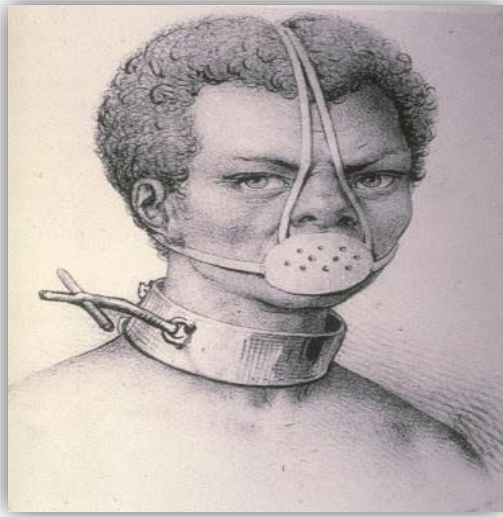

[The answer is blowin' in the wind" Bob Dylan](#)

Now we know what an airborne virus is, we know how it spreads, and we know how masks boost its spread significantly. This will give us a clear vision to learn **how evil works!** **First**, they told you Trump was infected because he didn't put his mask on, the fact is that Trump was never infected when no one around him was wearing masks during the first wave, he was infected when everyone around him was wearing masks and **blowing** the virus at him. **Second**, they told you Herman Cain, the presidential candidate, died as he didn't wear a mask. He died as his loved ones around him were wearing masks while **blowing** the virus at him. **Third** they told you "My mask protects you, your mask protects me" the fact is that some of us contributed to the death of their loved ones by having a mask on while **blowing** the deadly virus at them. You naively delivered a deadly virus to your loved ones and contributed to their death. The truth is **"My mask can kill you, your mask can kill me"**.

**That's how Evil works! Evil is very VERY EVIL!!**

My dear patient, I know you can't see them, but **there is a muzzle under my mask and a noose under my tie**, so forgive me for not shouting out the truth with the loudest voice.

I presented the truth to you, and I hope that **the TRUTH will set you ..... and ..... set me FREE,**  
“... you will know the truth and the truth will set you free” John 8:32

It was done before and here we go again America the **New Slavery** is here as it dawns our New Normal. Don't worry, it will be an **Equitable Slavery**, skin color is not a factor anymore, only the **Elite are exempt!**

**Elites !**

**Elite with our children masked!!**

**Another Elite with our children masked!!!**

**MASTER Elites with their subjects masked!!!!**

If you love your parents stop risking their lives and take off those **killer masks**.

For God's sake America if you love your kids stop suffocating and abusing them, let them grow up normal don't allow the groomers to mold your kids to grow up fearful and submissive to them. **A mask to a human is nothing but a HARNESS to an animal, the sooner you put it on the sooner you control the animal, as it will always obey and never resist while falsely feeling safe.** They want your kids to be submissive to the Groomers Union, aka Teachers Union, so they can feed them their poisons, whether "Socialism", "Family unit destruction", "Wokeness", "CRT", or "Gender transformation" and if you don't like it, they will take your kid away and label you as an abusive parent and even a domestic terrorist. They will not just stop at taking away your kids' innocence; they will go all the way to castrate your boys!! Can't you see it; they always start by mandating masks at the schools, just ask the New England Journal "of Groomers", previously "of Medicine", "[we believe that universal masking may be especially useful for mitigating effects of structural racism in schools](#)"!! They keep distracting you by allowing mask use arguments under the scope of biology instead of sociology; they will let you talk about epidemiology, but they will always hide their criminology. Wake up America if you want our "children to no longer be tossed to and fro by the waves and carried about by every wind of doctrine, by human cunning, by craftiness in deceitful schemes." **Ephesian 4:14.** America, the serpents are out of their holes and out of their closets, they are not friendly pets that can be part of your family, [they are full of venom with one target, your children](#), and how to groom them to change the fabric of our country.

America, can't you see it, they took away God and prayer out of our schools and they opened the closet doors wide open while leading the serpents directly into your kid's classroom. **HELLO AMERICA! SNAP OUT! STEP UP! WAKE UP TO REALITY, there is a major difference between "separation of church and state" and "separation of God and state",** the founding fathers never meant separation of God from the state, that's why they intentionally put "In God we Trust" on all our currency to remind us about this fact in our daily lives. They knew that once you push God out of the front door, the devil will sprint in through the back door and **once we lose God and separate Him, the Federation will collapse like a house of cards.** There are thousands of churches with different ideologies and the most powerful is the church of Satan! That's what we need to separate from, but there is only One God. Ideologies can change and decay, but God is Eternal. He is the God of Abraham, worshiped by the Jews, the Christians, and the Muslims. They all have common teachings as, worship God the creator, the loving, forgiving, and merciful; protect and respect your family, love and respect your parents and siblings, love your neighbors, love all races and all God creations, even love your enemies, do not kill, do not steal, do not lie, do not bear false witness, do not rape or commit adultery..... Only an evil person will do everything to prevent our kids from learning those ideals; guess what, Satan is now your kid's teacher and the serpents out of the closet are their role models. We have "Hate Crime laws" to protect the minorities; **it is high time to have "Innocence and Dignity Crime laws" to protect our kids, our future,** from those serpents violating their innocence in their classrooms, amusement parks, TV shows, books, cartoons and parades. The

groomers and their “Groomers Union” **“must be silenced, since they are upsetting whole families by teaching for shameful gain what they ought not to teach”** Titus 1:11. How come our tax money inscribed by “in God we Trust” go to the Pagan schools that separate God while shredding and stomping our flag? Can’t you see it, as sadly when God was pushed out of the Democratic Party it became the Dem**o**cratic Party; they no longer preach democracy, dem**o**cracy is their way of life and that’s what they preach!!

**America you better wake up, WAKE UP and do something before it is too late.**

**History taught us that great civilizations crumble when they rot from within.**

## **Is that’s it America???**

**Mask mandates were never set to protect us, they were meant to control us. Masks should NEVER be mandated, they SHOULD be OUTLAWED, they are one of the greatest HAZARDS to our health, our freedom, and our culture; they are only useful for robbers and criminals to hide their identity. It is criminal to advocate for their use. The only estimate we have is that 350,000 Americans died due to mask mandate policies; could the real number be 100,000 or 700,000 we will never know as we have a corrupt CDC, health leadership, politicians, press as well as social media and big pharma, they are all greedy and hungry for power. They will do everything to suppress the truth. When we had almost 600,000 deaths, both Pakistan and Egypt had only 30,000 deaths, was this due to the mask mandates or due to natural immunity? Our health leadership and the WHO don’t believe in the existence of natural immunity, then we have to assume that more than 900,000 are dead from the mask mandates or did they over report death numbers to scare us? Can anyone in this government give us a clear honest answer? Let it be clear, masks use is a hazard to our health and fabric, they are only useful for a criminal to hide behind and dirty politicians to enforce control and spread poisonous ideologies. Let it be known we will “not be overcome by evil but overcome evil with good” Romans 12:21” by revealing THE TRUTH.**

**“Let no man deceive you by any means” 2 Thessalonians 2:3**

**“This is the verdict: Light has come into the world, but people loved darkness instead of light because their deeds were evil.” John 3:19**

**Wake up America before it is too late!**

## Disclaimer:

I am a Board-Certified American physician who elected to serve the American families at the countryside in the heart of rural America, where I can practice real medicine without the distractions of academia. My main objective was to treat and protect my patients from disease and infections. Then I discovered that I need to protect my patients from Big Pharma and their collaborating elite medical establishment in academia. I had to learn how to differentiate between a “controlled randomized study” and “let’s control them randomly study” and to do that I have to learn how they manipulate words and statistics to achieve their hidden agendas. In my wildest nightmares I never thought that I will have to protect my patients from the NIAID, the NIH, the FDA, the CDC and even the WHO, but unfortunately, I had to develop skills similar to a mind reader or a professional poker player to figure out who is bluffing and gambling with my patient’s lives. No wonder the majority of Americans lost their trust in those institutions, and their physicians. Those confusing issues made me feel the need to explain the facts to my patients in the simplest way that will require no explanation by a media middle man with hidden agendas that will mislead them. ... **In the meantime, I ask every Governor to OUTLAW the use of masks in their state for the good and safety of their people and our children otherwise he is not fit.** We lost more than a million Americans for this pandemic, but we cannot blame all this loss on China; 350,000 lives or more were lost by this “mask mania” thanks to our health leadership mixing politics and medicine and working in harmony with the corrupt government and non- government establishments – aka the swamp - and supported by a corrupt press and social media that suppressed the truth and any voice of reason. But wait a second; all those have a single Master, China; so I guess China was directly or indirectly responsible for the death of every American. WE THE PEOPLE in the land of the free and the home of the brave, we will NEVER EVER have a “**CHINESE HARNESS**” on our face or our children’s face. One day the Chinese people will wake up and take off the “**CCP HARNESS**”. If you do not agree with me please “**explain it**” clearly to my patients without any misleading or confusing jargon. I proved to you that mask use is a hazard to our health, our fabric, our culture, and our country; prove me wrong ..... “**if you can**”
