

‘Neurodivergent’ is:

- a socio-political term
- a term that includes any person who diverges from neuro-normativity, including those with mental illness
- a term that names a marginalised social position
- a term of resistance against the idea that we’re disordered
- an inclusive term

‘Neurodivergent’ is not:

- a medical/clinical term
- synonymous with neurodevelopment
- another diagnosis
- about biological differences in the brain
- another word to replace disorder
- an exclusive term

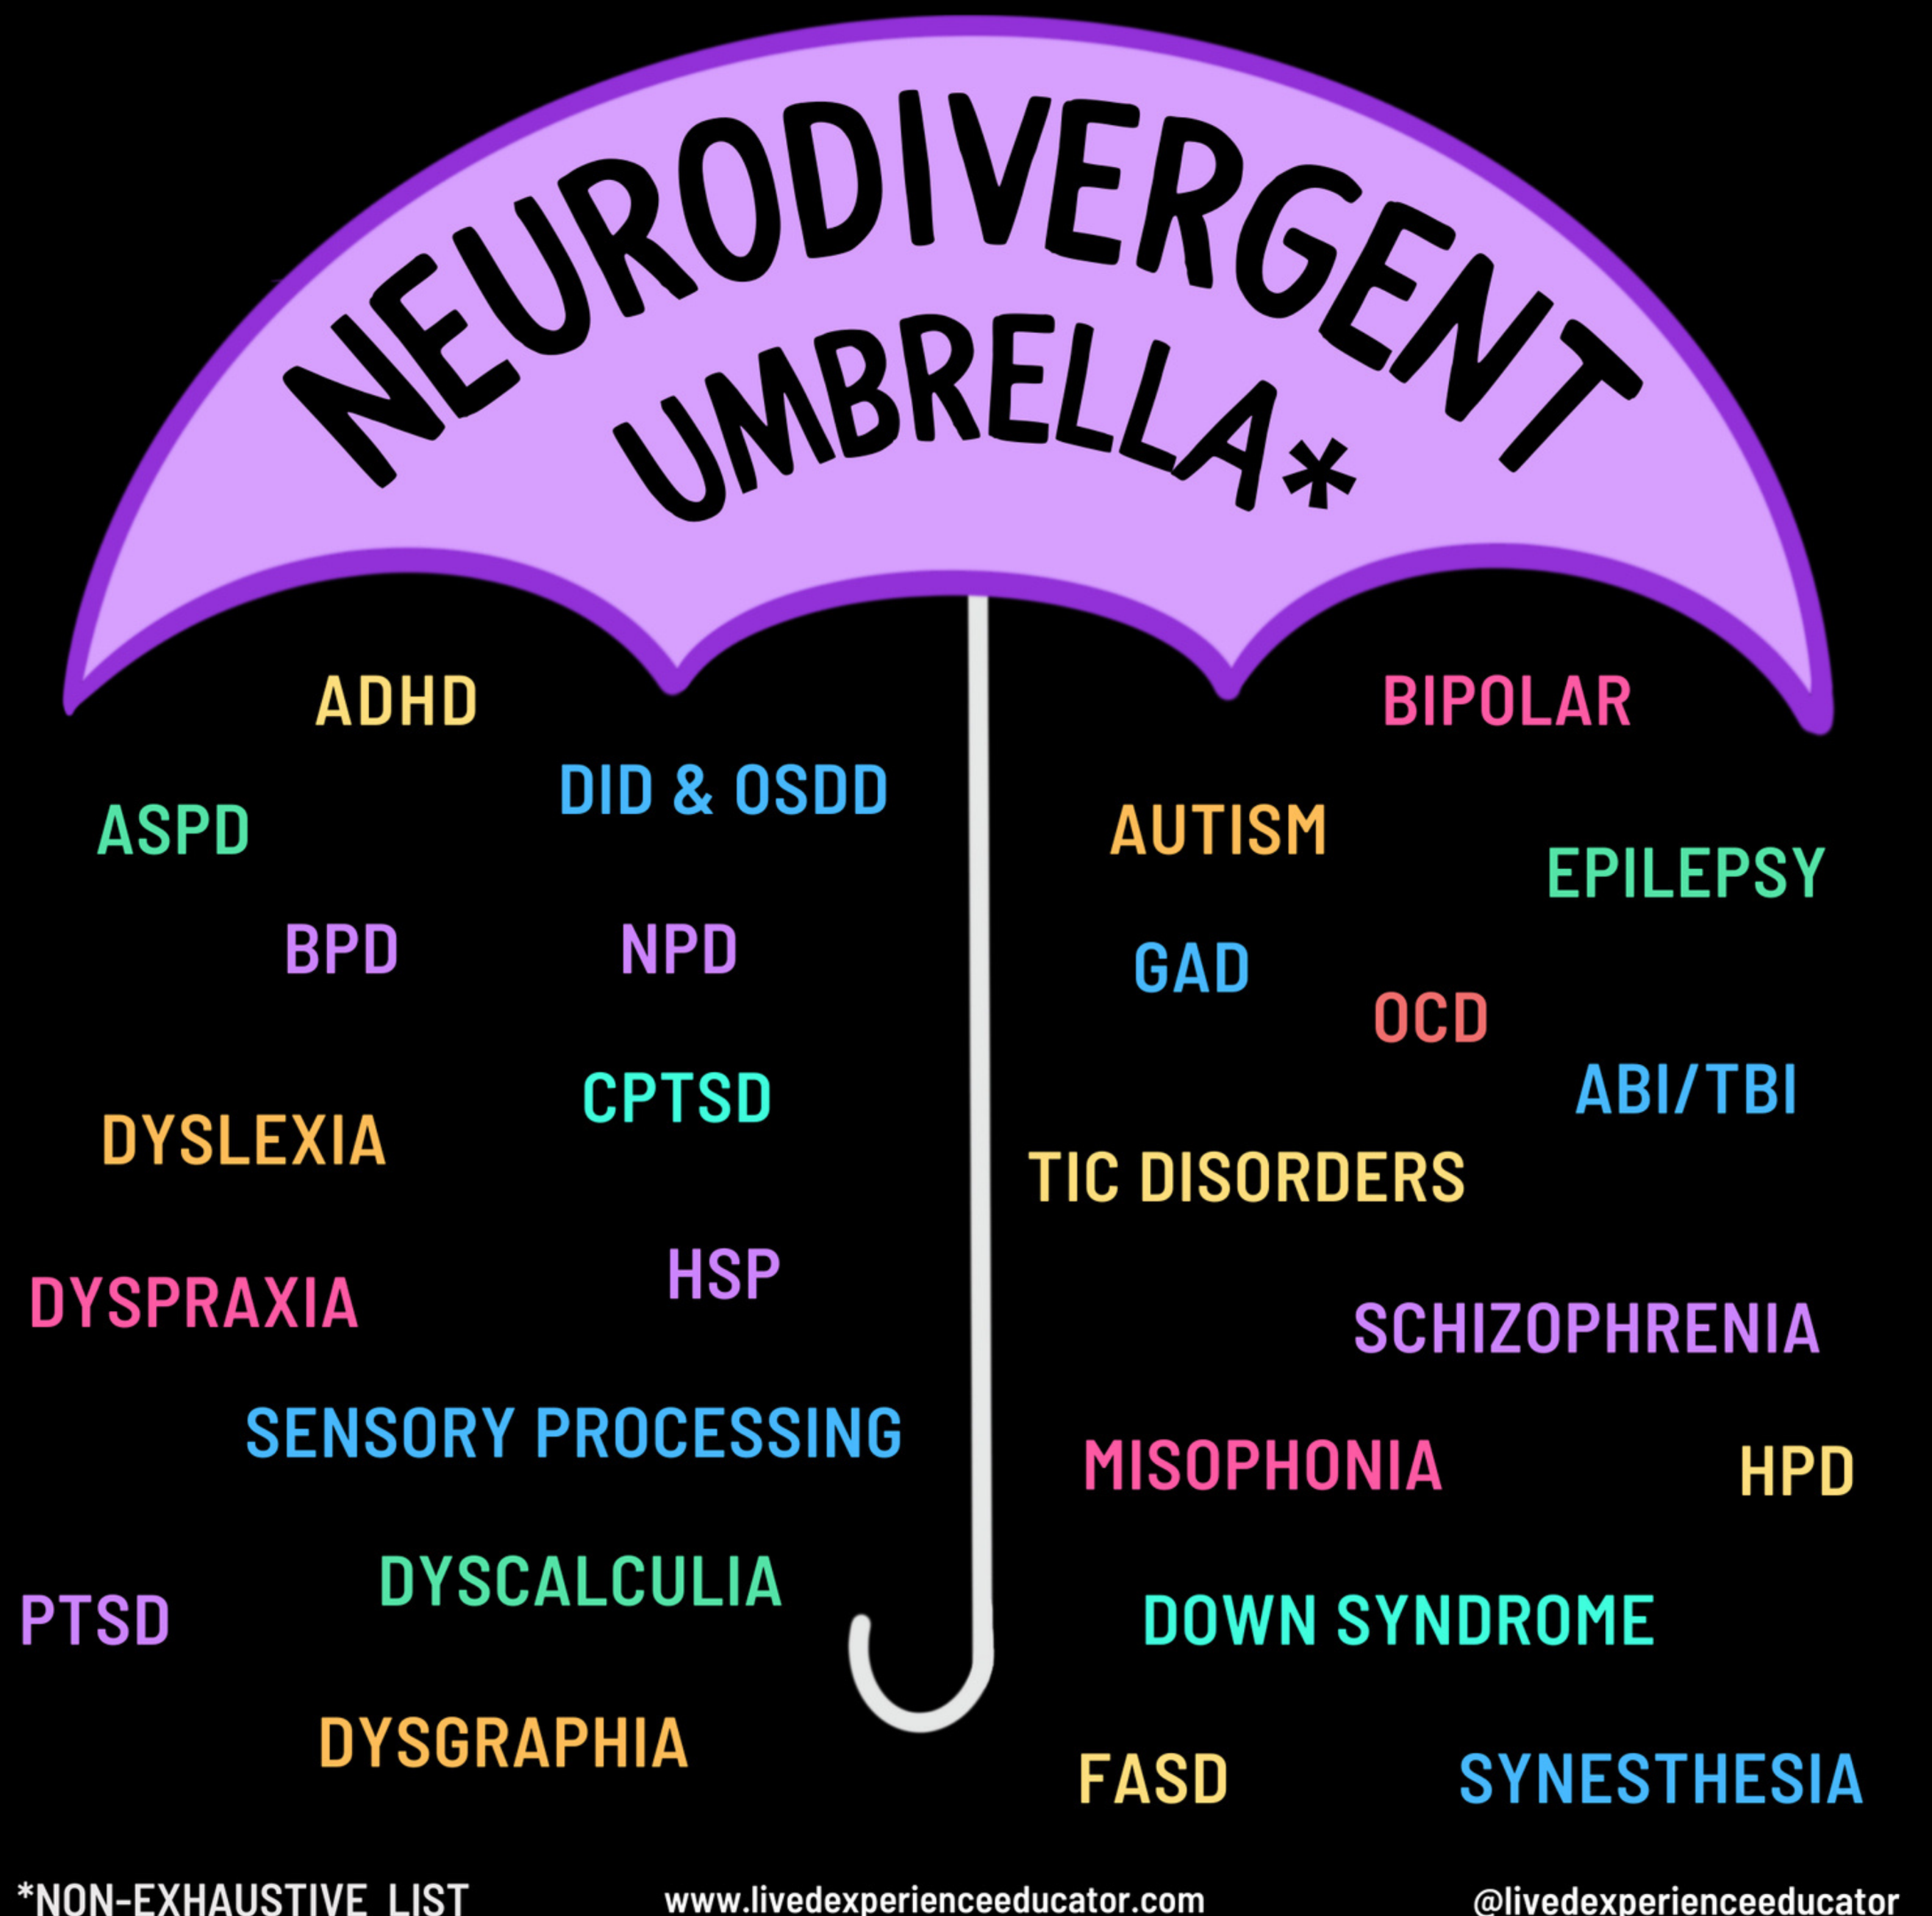

- Sonny Jane Wise (they/them)
