

Curriculum Vitae

First Name: Abdullatif

Middle Name: Abdul karim

Last Name: Suliman

Date of birth : 1976/03/08

Nationality: Syrian

Social situation: Married

Qualification: Diploma in Survey

University: Damascus University (Engineering intermediate institute)

Experience:

20 Years in different survey and construction work

ALL types of construction, design, plan and profile projects (Topographic, Traverse, Elevation, Survey computation, Drafting, Setting out, checking the Arial maps)

From 1998 up to 2014 I had worked as a survey supervisor in JATCO

from 2014 up to 2021, as a survey supervisor in Saudi Electricity Company (SEC).

The activities

Managing the survey crews and selecting the line route of proposed transmission lines
And checking the field note of deferent type survey works and checking the final drawings and creating a base map

I have selected more than 3000 km of many proposed route of Overhead/Underground transmission lines in Kingdome wise

- Rerouting some portion of GCC line
- Preparing a base map of underground cables for different voltages
- Checking SEC survey drawing as per SEC standard

- Establishing a survey unite in SEC-West under Design and engineering department and beside that creating a base map in west region for SEC-west
- Preparing maps, drawing, charts of progress projects, and job progress statements for tracking the implementation schedule.
- Investigate selection of proposed projects routes at the site such as (Pipe Lines, Transmission Lines, and roads) for updating drawings.
- Estimating time, costs and quantities of project plan in order to find the feasibility study of work.
- Using a variety of specialized instruments and equipment such as GPS & Total Station for performing different surveying purposes (Topographic, Setting out, Grid levelling, Contour lines).
- Analyzing the surveyed data to the drafting software such as “AutoCAD and Micro-station” and prepare the drawings.
- Preparing the main specifications of the contracts for tenders and revising the contract's conditions.
- Preparing construction regulations, work orders and planning statements

Skills:

- Goal setting and meeting dead lines
- Decision making
- Team leadership
- Strategic thinking
- Productivity
- Find solution
