

# SIGMA MINI 300

## PORTABLE POWER STATION

### TECHNICAL DATA

| MODEL               | Sigma Mini 300                                      |
|---------------------|-----------------------------------------------------|
| Battery Type        | Lithium-ion                                         |
| Voltage / Frequency | 230V/50Hz                                           |
| Rated Power         | 300W                                                |
| Peak Power          | 600W                                                |
| Battery Capacity    | 265.7Wh (25.55V/10.4Ah)                             |
| Wave form           | Pure Sine Wave                                      |
| 2xUSB-A Output      | No                                                  |
| 2xUSB-C Output      | QC 3.0 5-6.5/6.5-9/9-12VDC, up to 3/2/1.5A, 24W Max |
| 2xPD Output         | 20/15/9/5V ,65W Max                                 |
| 2xDC Output         | 12V DC Socket Port 12V/8.3A/100W (Max)              |
| 12V Cigarette Port  | 13.6A/136W (Max)                                    |
| Wireless Charging   | 15W                                                 |
| AC Output           | 1                                                   |
| Parallel Output     | N/A                                                 |
| AC Input            | 20V/6A/120W                                         |
| Car Input           | 100W                                                |
| Solar Input         | 18-25V/200W Max                                     |
| BMS Protection      | √                                                   |
| 15W LED Light       | 25%, 50%, 100% brightness, SOS, Flash               |
| Net Weight          | 3.5Kg                                               |
| Dimension           | 230x145x148mm                                       |
