Donations and Knowledge Competitions

The UNEC Correspondence and Additional Education Center actively contributed to the "Green Future" campaign by donating funds to plant 100 tree seedlings, as part of the ecological actions within the "Green UNEC" year.

Students of the UNEC's Correspondence and Additional Education Center engaged in a knowledge competition focused on ecological topics, such as ecology, environmental issues, green energy, and COP-29, as part of efforts to promote environmental awareness.

A seminar on "Global Climate Change and Azerbaijan's Main Directions of Activity Against Climate Change" was conducted at UNEC's Faculty of Economics and Management, providing insights into climate change mitigation strategies and Azerbaijan's role in addressing environmental challenges.
