UNEC Students at the "United Homeland and Green World" Camp

A camp titled "United Homeland and Green World" was organized for UNEC students at UNEC's Guba Education, Sports, and Recreation Complex under the framework of the Year of Solidarity for a Green World, with the initiative of the UNEC Student Trade Union Committee (STUC).

The camp was attended by international students studying at UNEC and students who achieved the highest scores in their respective faculties. Activities included a Discussion Forum on the topic of "Green Economy" among UNEC's research-oriented students, a training session on "Enhancing Digital Resource Skills in Green Research", as well as intellectual games, football, and volleyball competitions.

As part of the students' initiative to protect birds, "bird shelters" were crafted and painted. These shelters are planned to be hung across all buildings of the university.

The primary goal of the camp is to promote environmental protection, the restoration and expansion of greenery, the efficient use of water resources, and to raise awareness among students about the significance of hosting COP29 in Azerbaijan. Additionally, the camp aims to ensure the effective use of students' leisure time.
