

THREAD X TRADERS

T-SHIRT DESIGN

PACK

2025

HOW IT WORKS:

- **All items in our Production Services range are created on a made-to-order basis and only manufactured once requested. Please complete the design pack with your specifications so we have a clear, detailed description of your product. If the design pack does not address certain details you require, you can include notes for us to review and assess feasibility. Any sketches, drawings, or additional reference files can be attached in the annex section.**
- **Email your completed tech pack to info@threadXtraders.com. We will review it and set up a call if needed.**
- **Once you approve the final, production-ready tech pack and confirm your order, we'll begin manufacturing after payment is received. When your items have passed our quality inspection, we'll provide you with the tracking details.**

GUIDANCE:

PLEASE READ CAREFULLY AND GO STEP BY STEP!

1

MEASUREMENTS:

Our custom-fit option allows you to adjust the measurements of our standard products to suit your exact needs, creating a tailored cutting pattern. This program gives you full flexibility to design unique and well-fitted pieces. If you'd like changes beyond just sizing—such as adding or removing pockets, mixing fabrics, etc.—please note them below and include detailed sketches with measurements. If you already have cutting patterns, kindly attach them.

2

FABRIC:

Provide the PANTONE TCX code for your desired color. You can also choose from various dyeing methods. Please keep in mind that choosing certain techniques may increase the minimum order quantity (MOQ). Fabric weight may vary by up to 10% from the specified GSM (grams per square meter).

3

PACKAGING:

We can supply packaging based on your requirements. Additionally, we offer a complete fulfillment service—from initial contact to having the finished product delivered to your customer.
