# ENDLESS PASSION

The job of a wedding photographer is a very strenuous one, the general population can not imagine how much **study and sacrifice** goes into every shot, a job that is chosen from passion only. It takes away many things, like your private life, we are always travelling to some part of the world to **immortalise moments**. It is a physical commitment most of the time pushing you to the limit, you must always be up to date, artistically and technically, but to be a wedding photography you must add a little of yourself to **the sentiments**, which means offering moments of happiness.

“Photography for us is not looking, it's feeling. If you can't feel what you're looking at, then you're never going to get other to feel anything when they look at you pictures.”

“The most beautiful destiny for a photo is to finish inside an album of memories.”

# MY STYLE !

I am the kind of person who is in love with **whole of love**.  
I love feelings, emotions, thoughts and fantasies.  
I think they are the most precious gift that mankind have.  
I believe in moments and memories and  
all those tiny **unforgettable things** that happens  
between moments turning memories..

Choosing wedding photography was a natural consequence. It offers the **unique opportunity** to capture human emotions in all their shades.

I don't think that in the field of photography I ever take pictures of something different from capturing **feelings and emotions** because I'm really in tune with them.

# THE COVERAGE

Starting from Ganesh Stapna to Ganesh Darshan of Couple after bidai, there is **nothing to miss** out in this perfect dream ceremony. We are there to capture the moments, the emotion, the fun and crowd cheering loud. We also cherish every moment as **part of your family**.

The color of mehndi may last for few days but memories in your **wedding album** is perfect way to recall those all rituals, haldi moments, dancing friends madly, fam jam and some stunning potraits.

Emotions of bidai are most adorable. It fascinates us to capture this elegant way of expression.

There is nothing quite having album with full of **stories and details** of a big day. And we are passionate to do that.

This **12x36 inch** a sheet album comes in fine linen and durmast, and can hold around 250 pictures. Materials, colors, size, writings, and logos on the metal parts can be custom-made. Coordinated with the USB packaging, it is the perfect mix of luxury and elegance.

## Traditional Video

A Traditional videographer has a typical video camera that is usually shot continuously. Capturing all moments as they happen with minimal editing like a full documentary of the day.

## Cinematic Video

A cinematic video is a video that resembles a film. It is captured and edited for the dramatic effect and mood. There's storytelling involved and it gives you those emotions you can't get from a Traditional Video.
