

DR. Raja M. Zuha

I am always fascinated by the concept of life beyond death, from natural and biological perspectives. The interconnections of countless insects on decomposing cadavers produce an ecosystem of unfamiliarity and mystery. I was introduced to forensic entomology when I was completing Biomedical Science (Hons.) Degree Program in 2003 at Universiti Kebangsaan Malaysia. There, I was trained to recognize the specific roles of flies and beetles, not only as decomposers but also as forensic indicators. In 2006, I received Master of Criminal Justice from Universiti Malaya, and it gave me a clear understanding on the role of entomologists as expert witnesses and insects as scientific evidence. I met scuttle flies (Diptera: Phoridae) in 2009 through my doctoral advisor, Prof. Emeritus Baharudin Omar and from there on I found my purpose. In 2014, I earned my PhD and wrote a thesis on the *Bionomics of Forensic Scuttle Flies*, which was greatly influenced by the world's authority in scuttle flies, Dr. R. Henry L. Disney from the University of Cambridge. We have worked together on the taxonomy and bionomics of forensically important scuttle flies including describing new species and new geographical distributions of scuttle flies from

Peninsular Malaysia. For me, examining these remarkable tiny creatures of extremely diverse morphology, habits and habitats are a truly humbling experience.

PERSONAL DETAILS

Full Name	:	RAJA MUHAMMAD ZUHA B RAJA KAMAL BASHAH
Nationality	:	MALAYSIAN
Age	:	43 y.o
Date of Birth	:	2 February 1981
Place of Birth	:	Kuala Terengganu, Terengganu, MALAYSIA
Marital Status	:	Married, 3 children

OFFICE ADDRESS

Program Sains Forensik (UKM Forensics)	Office No.	:	+603-89217200/7210
Fakulti Sains Kesihatan	Mobile No.	:	+6019-3930366
Basement One, Perpustakaan Tun Seri Lanang	E-mail	:	rmzuha@ukm.edu.my
Universiti Kebangsaan Malaysia	Website	:	www.lalatologi.com
43600 UKM Bangi			
Selangor			

OTHER AFFILIATIONS

- +ADJUNCT SENIOR LECTURER, Murdoch University, WA, Australia 2019-2021
- +ADJUNCT LECTURER, UCSI University, Malaysia 2021-2022
- +RESOURCE PERSON (Diptera), Malaysian Biodiversity System, Ministry of Water, Land and Natural Resources
- +RESEARCH FELLOW, Centre for Insect Systematics, Faculty of Science and Technology, UKM
- +RESEARCH FELLOW, Fraser's Hill Research Centre, Faculty of Science and Technology, UKM

ADMINISTRATIVE EXPERIENCE

- Head of UKM Forensics (Aug 2012-Aug 2019)

AWARDS & RECOGNITION

- + UKM Excellent Service Award 2009
- + UKM Excellent Service Award 2017
- + UKM Innovation Award – Management and Administration 2015
- + Insect species named after, *Chonocephalus harveyetzuhai* Disney (Diptera: Phoridae) 2016

PHILOSOPHICAL INFLUENCE

- + Marcus Aurelius (Meditations)
- + Baruch Spinoza (Ethics)
- + Thomas Paine (Common Sense)

INSPIRATIONAL FIGURES

- + Charles Darwin
- + Alfred Russell Wallace
- + Abdul Latiff Mohamad
- + David Attenborough

HOBBY/INTERESTS

- + Photography (Nature Close-up/Macro & Long Exposure)
 - + Curating Insects
 - + Color theory
-

ACADEMIC

UNIVERSITY TEACHING RESPONSIBILITY

At UKM

- i. NNNX3193 Forensic Entomology
- ii. NNNX3362 Criminology
- iii. NNNX2252 Investigative Statistics
- iv. NNNX4012 Introduction to Law and Evidence
- v. NNNX3043 Forensic Science Research I
- vi. NNNX4223 Forensic Science Research II
- vii. NNNB2423 Medical Entomology
- viii. NNNB6543 Human Parasites and Vectors, Master of Health Science (Biomedical Science)
- ix. STAB6664 Urban and Medical Entomology, MSc. (Entomology), Faculty of Science & Technology

As a Guest Lecturer

- i. MIC4002 BIOMEDICAL SCIENCE HORIZONS, Faculty of Medicine, University of Malaya

CURRICULUM DEVELOPMENT

- i. External Member Board of Studies, BSc. (Hons.) Forensic with Analytical Science, UCSI University 2016
- ii. Committee on the Study of Master of Forensic Science, University of Malaya (22 Mar 2018–21 Mar 2021)

INTERNATIONAL STUDENT MOBILITY

- i. New Colombo Plan; Murdoch University; 2 June – 13 July 2018; Mode: Inbound

Participants & Nationality:

1. Paola Annarosa Magni (Lecturer)	Italian
2. Jolene Micaela Anthony	Australian
3. Danielle Jade College	Australian
4. Thomas James Pascoe	Australian
5. Tamara Jane Jarvis	Australian

- ii. New Colombo Plan; Murdoch University; 30 June – 12 July 2019; Mode: Inbound

Participants & Nationality:

1. Paola Annarosa Magni (Lecturer)	Italian
2. Laura Grace Pember	Australian
3. Madeleine Rose Christie	Australian
4. Orsolya Tia Hadhazi	Australian
5. Andrew Kenneth David Swetman	Australian
6. Kate Surace	Australian
7. Courtney Dianne Watt	Australian
8. Eleanor Patricia Newton	Australian
9. Chelsea Mae Price	Australian
10. Shivani Sujeet Radia	Australian
11. Louise Branch-Smith	Australian

- iii. New Colombo Plan; Flinder's University, Semester 1 Academic Session 2019/2020 Mode: Inbound

Participants & Nationality:

1. Sarah Louise Walsh	Australian
-----------------------	------------

RESEARCH

EXPERTISE/RESEARCH INTEREST

- +Bionomics and diversity of scuttle flies (Diptera: Phoridae) and saprophagous Diptera
- +Taxonomy of Phoridae
- +Forensic entomology
- +Geometric morphometric analysis

RESEARCH SUPERVISION

Undergraduate Supervision

1. Supriyani bt. Mustamin (A100525); 2007; Documentation of adult *Chrysomya megacephala* (Diptera: Calliphoridae) artifacts and its importance in forensic entomology; Bachelor of Biomedical Science (Hons.), UKM
2. Thigenesen a/l Venoo; 2010; Developmental period of *Chrysomya megacephala* (Fabricius) and *Hemipyrellia ligurriens* (Wiedemann) (Diptera: Calliphoridae) at natural environmental temperature and humidity of Tun Syed Nasir College, Kuala Lumpur; Bachelor of Forensic Science (Hons.), UKM
3. Rus Dina bt. Rus Din (A115799); 2010; The effect of food deprivation on the development of *Chrysomya megacephala* (Fabricius) and *Hemipyrellia ligurriens* (Wiedemann) (Diptera: Calliphoridae) at fluctuating outdoor temperature and humidity; Bachelor of Forensic Science (Hons.), UKM
4. Gina Francesca Gabriel (A111161); 2010; Effect of different food source on larval size of *Hemipyrellia ligurriens* (Wiedemann) (Diptera: Calliphoridae) at natural environmental temperature and humidity; Bachelor of Forensic Science (Hons.), UKM
5. Nurhusni bt. Mohamad Room (A115173); 2010; Hourly diurnal pattern of forensically important blow flies (Diptera: Calliphoridae) at Forensic Science Simulation Site, UKM Bangi and Tun Syed Nasir College, Kuala Lumpur; Bachelor of Forensic Science (Hons.), UKM
6. See Huong Wen (A117574); 2011; Faunal succession on rabbit carcasses inside luggage and waste bins; Bachelor of Biomedical Science (Hons.), UKM (as co-supervisor)
7. Sheril June Ankasha bt. Mohamed Rusli (A118385); 2011; The occurrence of forensically important flies (Insecta: Diptera) on rabbit carcasses in a portable cabin; Bachelor of Biomedical Science (Hons.), UKM (as co-supervisor)
8. Tan Yap Hoon (A118422); 2011; The prevalence and ovipositional tendency of forensically important scuttle fly (Diptera: Phoridae) found in an urban area in Malaysia; Bachelor of Biomedical Science (Hons.), UKM (as co-supervisor)
9. Tasnim bt. Abdul Razak (A116875); 2011; Developmental rate of *Megaselia scalaris* (Loew) (Diptera: Phoridae) at various constant temperatures; Bachelor of Forensic Science (Hons.), UKM
10. Zalifahtul Husna bt. Zulkifli (A114745); 2011; Developmental rate of *Megaselia scalaris* (Loew) (Diptera: Phoridae) at different photoperiods in laboratory; Bachelor of Forensic Science (Hons.), UKM
11. Yap Jen Yew (A122657); 2012; The use of scuttle fly (Diptera: Phoridae) life cycle in minimum post-mortem interval indoors; Bachelor of Forensic Science (Hons.), UKM
12. Woon Pei Chen (A122969); 2012; Insect succession pattern of forensically important insects on buried rabbit carcasses at Forensic Science Simulation Site, UKM Bangi; Bachelor of Forensic Science (Hons.), UKM
13. Amirah Suhailah bt. Ramli (A130039); 2013; The effect of ethanol and isopropyl alcohol on the size of *Megaselia scalaris* (Loew) (Diptera: Phoridae) at different time interval; Bachelor of Forensic Science (Hons.), UKM
14. Nur Aqidah bt. Ahmad (A126934); 2013; Effect of burned and raw cow's liver on the development and size of *Megaselia scalaris* (Loew) (Diptera: Phoridae) at natural environmental conditions; Bachelor of Forensic Science (Hons.), UKM
15. Ang Wan Yong (A130646); 2013; Ultrastructure of the compound eyes and terminal segments of forensically important scuttle flies (Diptera: Phoridae); Bachelor of Biomedical Science (Hons.), UKM (as co-supervisor)
16. Jenarthanan Lai Xiong Qi (A134346); 2014; The occurrence of scuttle flies (Diptera: Phoridae) on rabbit carcasses in aquatic environments for minimum post mortem interval (mPMI) estimation; Bachelor of Forensic Science (Hons.), UKM
17. Ng Wai Kin (A131914); 2014; Development of forensically important *Ophyra* spp. (Diptera: Muscidae) at natural environmental conditions; Bachelor of Forensic Science (Hons.), UKM
18. Foo Lee Min (A132415); 2014; Behavioural response of blow flies *Chrysomya megacephala* (Fabricius) (Diptera: Calliphoridae) towards carrion-related synthetic volatile organic compounds; Bachelor of Forensic Science (Hons.), UKM (as co-supervisor)
19. Siti Zulaikha bt. Abu Bakar (A132339); 2014; Oviposition activity of forensically important scuttle fly, *Megaselia scalaris* (Loew) (Diptera: Phoridae) at different light-dark conditions; Bachelor of Forensic Science (Hons.), UKM
20. Azim Rabbani b. Syed Sultan (A142343); 2016; Comparison between consistency in measurement of body length and cephalopharyngeal skeleton of forensically important larvae, *Hypopygiopsis violacea* Macquart (Diptera: Calliphoridae); Bachelor of Forensic Science (Hons.), UKM

21. Ashwani binti Abdul Rahman Subramaniam (A140848); 2016; SEM imaging of forensically important scuttle flies; Bachelor of Forensic Science (Hons.), UKM
22. Arnong Vaneeda A/P Vik Chan (A140379); 2016; Animal decomposition and the attraction of forensically important flies in man-made pond environment; Bachelor of Forensic Science (Hons.), UKM
23. Shaz'wani Asyiqqin bt. Shafe'l (A140967); 2016: Scuttle flies (Diptera: Phoridae) of forensic importance in semi-urban environments in UKM Bangi; Bachelor of Forensic Science (Hons.), UKM
24. Nurul Waznah bt. Md Anis (A139918); 2016; Cephalopharyngeal skeleton as an alternative to body length of the third instar larvae of *Chrysomya megacephala* (Diptera: Calliphoridae) and *Hemipyrellia ligurriens* (Diptera: Calliphoridae) for minimum PMI estimation; Bachelor of Biomedical Science (Hons.), UKM (as co-supervisor)
25. Puspa Eliza bt. Suhaimi (A144589); 2017; Development of *Chrysomya megacephala* (Fabricius) (Diptera: Calliphoridae) larvae based on 3D morphometric landmarks of cephalopharyngeal skeleton; Bachelor of Forensic Science (Hons.), UKM
26. Nurjannah bt. Abdullah (2012658774); 2016; Determination of fly pupal age by using Skyscan 1176 Micro-CT; Bachelor of Medical Imaging (Hons.), UiTM (as co-supervisor)
27. Lovey Cludia Guianus (A144589); 2017; The effect of storage periods in 70% ethanol towards *Chrysomya megacephala* (Fabricius) (Diptera: Calliphoridae) larvae and cephalopharyngeal skeleton; Bachelor of Forensic Science (Hons.), UKM
28. Khairunnisa bt. Shafee (A144607); 2017; Development of 3D morphometric landmarks of cephalopharyngeal skeleton of blow flies (Diptera: Calliphoridae) as an investigation tool in forensic entomology; Bachelor of Forensic Science (Hons.), UKM
29. Raz Farah Nina bt. Razali (A149025); 2018; Records of forensically important diptera on a rabbit carcass in an abandoned burnt portable cabin; Bachelor of Forensic Science (Hons.), UKM
30. Nurul Suhada bt. Mazalan (A148790); 2018; Development of diagrammatic age-length reference using forensic blow fly larvae (Diptera: Calliphoridae) for minimum PMI estimation; Bachelor of Forensic Science (Hons.), UKM
31. Nazihah bt. Anuar (A148299); 2018; Effects of preservatives concentrations on calliphorid larval body length and cephalopharyngeal skeleton length: Implications in forensic entomology; Bachelor of Forensic Science (Hons.), UKM
32. Sim Li Xuan (A152342); 2018; *Chrysomya megacephala* (Fabricius) (Diptera: Calliphoridae) development by landmark-based geometric morphometrics of cephalopharyngeal skeleton – a preliminary assessment for forensic entomology application; Bachelor of Forensic Science (Hons.), UKM
33. Sharanya Bhaskar (A153973); 2018; A preliminary geometric morphometrics assessment of two forensically important blow fly larvae in Malaysia, *Chrysomya megacephala* (Fabricius) and *Chrysomya rufifacies* (Macquart) (Diptera: Calliphoridae); Bachelor of Forensic Science (Hons.), UKM
34. Juliana Kristine Anthony (A153353); 2018; Wing shape variations of Malaysian forensic scuttle flies (Diptera: Phoridae) include sexual dimorphisms; Bachelor of Forensic Science (Hons.), UKM
35. Mohd. Sohaymee Mad Salim (A158569); 2019; Effect of different tissue types on the ontogenetic development of *Chrysomya megacephala* (Fabricius) (Diptera: Calliphoridae) larvae by using landmark-based geometric morphometric analysis; Bachelor of Forensic Science (Hons.), UKM
36. Fatin Azfiera bt. Azman (A160174); 2019; A preliminary assessment on the sexual shape dimorphism and species shape variations in three forensically important muscid flies in Malaysia; Bachelor of Forensic Science (Hons.), UKM

Postgraduate Supervision

1. Farhana Nadiah bt. Abdul Ghani (P78517); 2014-ongoing; Perubahan komuniti fungus hutan sekunder yang berasosiasi dengan pereputan bangkai; Master of Health Science (Biomedical Science) (as co-supervisor)
2. Sharifah Shakilah bt. Abdullah (P93307); 2018-2020 (withdrawn); Cephalopharyngeal skeleton morphometry of *Chrysomya megacephala* (Fabricius) (Diptera: Calliphoridae) as reliable parameter for minimum PMI estimation; Master of Health Science (Biomedical Science)
3. Md Gezani b. Md Ghazi (P107075); 2020-ongoing; Development of markers for fast detection of gasoline residue in forensic fire debris samples using gas chromatography-flame ionization detection (GC-FID) and chemometrics techniques; Master of Health Science (Forensic Science)
4. Reena bt. Abd Rahid (P112550); 2021-ongoing; Forensic entomology of enclosed and urban environment; PhD (Forensic Science)
5. Wong Junfung (P115272); 2021-ongoing; Taburan spatial dan temporal lalat forid (Diptera: Phoridae) berkepentingan forensik di Daerah Ampang Jaya, Selangor dengan rujukan terhadap profil geometri morfometri spesies; MSc. (Forensic Science)
6. Nur Ain Najihah bt Mohd. Rosdi (P119355); 2021-ongoing; Pembangunan pendekatan pemprofilan tanah; MSc. (Forensic Science) (as co-supervisor)
7. Ahmad Hadri b. Jumaat; registering 2022; Forensic aquatic entomology' PhD. (Biology), Faculty of Science & Technology.

Diploma Supervision

1. Sharifah Normah bt. Syed Ali (P102687); 2019–2021; Diploma Siswazah Sains Kepolisian, Fakulti Sains Sosial & Kemanusiaan.

AS THESIS EXAMINER

1. Azima Laili bt. Hanifah (P63274); 2015; Distribution of Acari (Arachnida: Acarina) on various animal carcasses at a secondary tropical forest in Bangi, Selangor; Master of Health Science (Biomedical Science) UKM
2. Siti Nur Akmal binti Ghazali (P94426); 2021; Molecular identification of *Chrysomya megacephala* in forensic entomology using loop-mediated isothermal amplification (LAMP); Master of Medical Science; UKM

RESEARCH GRANT

1. Geospatial Analysis of forensically important flies in Bandar Baru Bangi and its surrounding areas using Geographical Information Systems (GIS)
Grant :GGPM-2017-113
Position Held :Co-researcher
2. Development of cephalopharyngeal skeleton morphometry of blow flies (Diptera: Calliphoridae) and its application in forensic entomology
Grant :GGP-2017-036
Position Held :Head of Project
3. Development of forensic fraud investigation guidelines in Malaysia
Grant :FRGS/1/201/SS06/UKM/03/2
Position Held :Co-researcher
4. Digital stereomicroscopic image system: A novel protocol to safeguard the value of forensic entomological evidence using scuttle fly (Diptera: Phoridae) as a model
Grant :GGPM-2014-018
Position Held :Head of Project
5. Gandingan teknik kromatografi gas dan kaedah kemometrik tidak bersasar untuk pengesanan residu cecair mudah terbakar untuk penyiasatan forensik
Grant : GGPM-2021-028
Position Held : Co-researcher
6. The augmented taxonomy of scuttle flies (Diptera: Phoridae) associated with geometric morphometric profiles of the wing to facilitate diagnosis of forensically important species
Grant : FRGS/1/2022/WAB11/UKM/02/1
Position Held : Head of Project
