SHADES®

The Clever Curtain

Introducing Veri Shades®

Encompassing the style and sophistication of a curtain with the convenience of a blind.

Veri

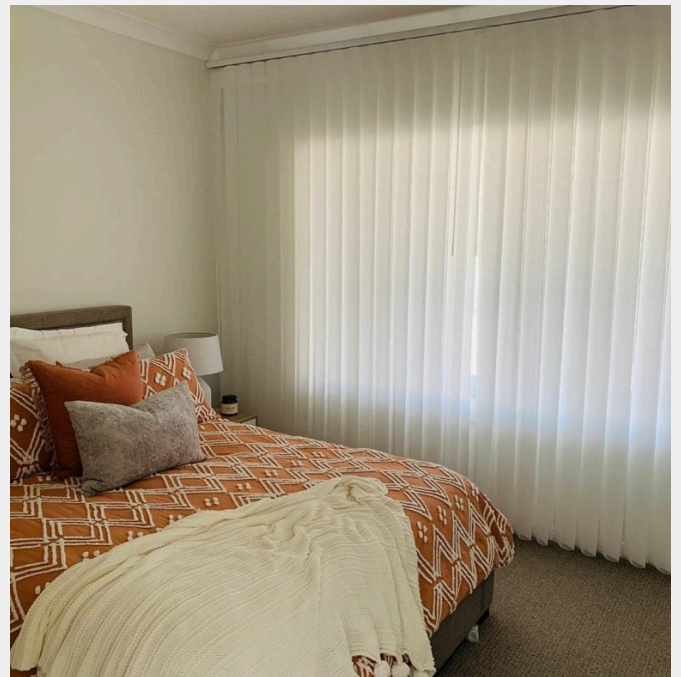

SHADES® *The Clever Curtain*

Veri Shades® , a revolution in modern styling and elegance.

Curtains are an ever popular favourite, providing a soft and elegant look...but, they're either open or closed...till now.

Veri Shades® provide the look and feel of a curtain with the versatility of a blind. Manufactured with soft fabrics that hang beautifully without the need for clunky weights or chains, this means you can walk through a Veri Shade® whether it is open or closed, the fabric will simply sway out of the way and settle back perfectly.

Veri Shades® , a revolution in safety and convenience.

Veri Shades® do not have chains to control the fabric folds, nor do they have a chain to control opening and closing meaning a safe environment for children and pets.

Veri Shades® are operated by a simple control wand that moves the blind back and forth whilst a simple twist of the wand will open and close the slats, giving complete privacy at your fingertips.
