At Aqua, we believe that exceptional facility management goes beyond maintaining buildings—it is about creating safe, efficient, and productive environments where businesses can thrive. Our commitment is built on professionalism, reliability, and customer satisfaction.

Since our establishment, we have focused on delivering high-quality facility management, manpower supply, and maintenance solutions tailored to the unique requirements of our clients across Qatar. Through our dedicated workforce, experienced management team, and customer-focused approach, we continuously strive to exceed expectations.

Whether supporting businesses with skilled manpower, providing professional cleaning services, or delivering technical maintenance solutions, our goal remains the same: to become a trusted long-term partner that contributes to our clients' success.

We appreciate your trust and look forward to serving your organization with excellence.

SINCERELY,

CEO

Aqua Facility Management

A BRIEF STORY ABOUT THE COMPANY

About Us

Aqua Facility Management is one of Qatar's leading facility management and cleaning service providers, with over 15 years of experience delivering exceptional services throughout Doha. Our success has been built on professionalism, reliability, quality, and a strong commitment to customer satisfaction.

We proudly employ more than 800 highly trained and experienced staff members from various nationalities, including the Philippines, Kenya, Nepal, and other skilled workforces. All our employees are fluent in both Arabic and English, ensuring smooth communication with clients, customers, and facility management teams at all times.

Our workforce consists of professionals with a minimum of two years of industry experience, while many team members possess over five years of hands-on expertise in cleaning, maintenance, and facility operations. Through continuous training and development programs, we ensure that our staff remain updated with the latest industry standards, technologies, and best practices.
