EXPERIENCE

Graphic Designer

September 2024 - Current

UConn Nutmeg Publishing

- Designed and published yearbook spreads for the UConn 2023-2024, 2024-2025 yearbooks, adhering to a consistent style guide.
- Translated photos and articles into visually compelling layouts, ensuring alignment with the publication's standards.
- Collaborated with peers and incorporated critiques to enhance design quality and readability.

PROJECT

Mobile App Design: FLORA – Flower Online Shop

- Designed a mobile app prototype using Figma, aimed at simplifying flower shopping for users.
- Developed in-app screens, including a user dashboard, product catalog, and checkout process, prioritizing simplicity and visual appeal.
- Incorporated user interface design principles to ensure an accessible and enjoyable user experience.

Digital Publication Design: The UConn Daily Campus

- Created a sleek, responsive digital publication prototype in Figma, focusing on simplicity, clarity, and smooth navigation for better user engagement.
- Designed intuitive layouts for the homepage, category, and article pages, tailored for both desktop and mobile users.
- Added interactive features like dynamic navigation, hover effects, and social sharing for an engaging user experience
- Focused on a functional, visually appealing design with category tags and related articles to enhance content connection.
