ATIVIDADE
SEGMENTAÇÃO SILÁBICA COM CLIPES

OBJETIVO:

Desenvolver a habilidade de linguagem (leitura/escrita), especificamente a segmentação silábica, ou seja, separar as palavras em sílabas. Além de estimular a habilidade de motricidade fina com o uso dos clipes.

Os clipes coloridos são colocados de acordo com a quantidade de sílabas, assim como mostra a imagem ao lado.

Aprender pode ser divertido!!
