InteractiveBrokers

Navigating the world of trading and investing can be a challenging and time-consuming process. Despite the wealth of information available, many traders & investors find it difficult to stay on top of the ever-changing markets and trends.

That's where our auto-trading platform comes in. Our transparent service allows investors to select an established investment manager with a proven track record and seamlessly integrate their trading account. Once connected, our platform will automatically copy the manager's trades in real-time, proportionally to the investor's portfolio.

By taking the hassle out of investing, our auto-trading platform empowers investors to benefit from the expertise of successful investment managers, without having to actively monitor the markets themselves. With our reliable and user-friendly service, you can enjoy the peace of mind that comes with knowing your portfolio is in good hands.

Frequently Asked Questions

What is Montman?

Montman Pte Ltd is a Singapore technology boutique firm specialised in automated trading. We offer integration to your chosen best-in-class strategy.

What is Montman's Auto Trading?

Auto-trading involves the linkage of your Interactive Brokers account to a master trading account so that the trades executed per the strategy are replicated proportionately in your account. The process is automated so you don't need to login or perform any trades yourself. Full automation means you can sit back and let the strategy do all the work!

Our team of experienced professionals has a proven track record with an average annual growth of 41% since 2019.

What are the benefits of Montman's Auto Trading?

With auto trading, investors can implement a consistent and well-defined trading strategy. The benefits of auto trading include increased efficiency, reduced emotions and associated errors. Additionally, auto trading can help to diversify your portfolio and implement a consistent strategy - even when you're not actively monitoring the markets.

Who can benefit from Montman Auto Trading?

Auto trading is ideal for a variety of investors, including busy professionals who do not have the time or resources to constantly monitor the markets and make trades manually, those who lack experience or knowledge of financial markets but still want to invest and grow their wealth, and those who are looking to diversify their portfolios across multiple assets and markets. Additionally, our auto trading service is ideal for investors who want to minimize emotions and errors in their trading decisions, as well as for those who have not performed as well as our proven track record of average annual growth of 41% since 2019. Regardless of your background or investment experience, our auto trading service offers a convenient and effective way to reach your financial goals.

Who else can benefit from Montman Auto Trading?

In addition to individual investors, companies and businesses with cash reserves can potentially enjoy improved returns. By investing cash reserves, companies can earn a higher return on their investment compared to keeping their money in low-yielding accounts such as savings accounts or money market funds. Due to the nature of auto trading, trades can be easily liquidated so funds are readily available if required.

Inflation protection: Investing cash reserves can help companies to protect against the effects of inflation, which can erode the purchasing power of their money over time.

Diversification: Investing cash reserves can help companies to diversify their investments and reduce their overall risk exposure.

Better cash management: Investing cash reserves can help companies to manage their cash flow more effectively, which can be particularly beneficial for businesses that have variable or unpredictable revenue streams.

Disclosure

Auto trading strategies show a superior historic performance however any investment involves risk. The value of investments and the income from them can go down as well as up and you may not get back the amount originally invested. Past performance is not a guarantee of future performance.

Auto trading may not be suitable for all investors. You should make your own investment decisions based upon your own financial objectives and financial resources and, if in any doubt, should seek advice from an investment adviser.

Montman is a technology firm and is not qualified to offer advice on investments. The decision to use our auto trading technology is the sole responsibility of the client.
