

EMBERSTONE INNOVATIONS

IGNITE SUCCESS

Forged in Service. Delivered with Precision.

Company Overview

Emberstone Innovations Corporation is an SDVOSB and WOSB headquartered in Jacksonville, NC — adjacent to Camp Lejeune and major DoW/DoD installations. Service-connected disabled veterans with 70+ years combined military experience and 15+ years contracting expertise, delivering training support, administrative and program support, and medical case management to DoW/DoD and federal agencies with the discipline and accountability forged in uniform.

Differentiators

■ SDVOSB & WOSB Certified

Eligible for set-asides, sole-source awards, and small business preferences.

■ Veteran-Led Leadership

Firsthand military insight and operator-level understanding of DoW/DoD mission requirements.

■ Strategic Location

Jacksonville, NC — adjacent to Camp Lejeune for rapid DoW/DoD response and on-site support.

■ Mission-First Culture

Reliability, integrity, and warfighter success — consistent results on every contract.

■ FAR/DFARS Ready

Audit-ready documentation and disciplined, zero-surprise contract execution.

Past Performance

Medical Records Case Management

Our leadership team has hands-on program management experience in medical records case management, having directly supported National Guard units across multiple states including Oregon, Kansas, and Connecticut. This is not theoretical knowledge — our principals have managed these programs in the field.

- Oregon National Guard — Medical Records Case Management
- Kansas National Guard — Medical Records Case Management
- Connecticut National Guard — Medical Records Case Management

Military Training & Instruction

- Military tactics instruction
- Irregular warfare training and instruction
- Military Skills Enhancement Services (MSES)
- Classroom instruction and curriculum development

Key Personnel

• Former community college **Dean** — curriculum development, program administration, and institutional training design.

• U.S. Army **Senior Small Group Leader, Instructor/Writer, and OC/T** — 7+ years developing and delivering military training across tactical and operational environments.

• USMC **Formal School Instructor Course and Curriculum Developers Course** graduate — served as Marksmanship Instructor at Weapons Training Battalion, Quantico, and SNOIC of the 2nd Marine Division Training Center Marksmanship Training Unit. Trained U.S. and multinational forces including Iraq, Afghanistan, Lebanon, and Jordan.

These credentials are built into how we work, not just listed on a resume.

Core Competencies

Medical Case Management

End-to-end coordination of care for DoW/DoD and federal personnel in support of service member health, recovery, and mission readiness.

- Case assessment, care plan development, and ongoing monitoring
- Provider and benefits liaison; referral coordination
- Medical documentation and HIPAA-compliant records management
- MEB/PEB process support as required by contract scope
- Transition of care planning and continuity coordination
- Regular case status reporting to CORs and program managers

Mission Support Training Services

Comprehensive training support aligned with DoW/DoD and federal mission requirements — from coordination through execution and documentation.

- Training schedule coordination and classroom logistics
- Instructor and facilitator support
- Curriculum management and materials preparation
- LMS administration and training record maintenance
- After-action reporting and training compliance documentation
- Liaison with CORs and installation training officers

Administrative and Program Support

Reliable administrative and program support services that keep federal contracts running efficiently, compliantly, and audit-ready.

- Staffing, office management, and records administration
- Program and contract documentation and reporting
- Compliance tracking and audit-ready file maintenance
- COR and program manager administrative support
- Data entry, database management, and correspondence
- Records retention per federal regulations and contract requirements
