- Following a pilot program and valuable feedback from restaurant managers, we've learned that **the best way to make EasyEats truly effective in this economy is to keep it simple and free.**
- We're committed to showcasing Zimbabwe's food scene and giving restaurants like yours the exposure you deserve **without charging you a cent.** As more people use the app to discover food options, we will generate value through targeted advertising and partnerships. So it is in our best interest to market you well in order to grow the app.

BENEFITS OF EASYEATS

GET MORE CUSTOMERS

EasyEats users and followers are the ideal target market. They love discovering new places to eat, great deals, exciting events, and promotions!

GET MORE CALLS

The app allows restaurants to display their menus, contact info, location, social media handles and much more useful info. It also lets you collect online bookings.

FREE MARKETING

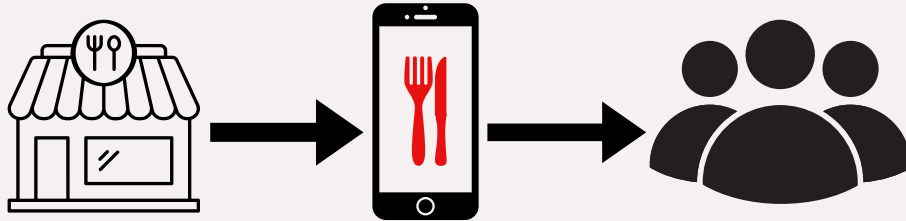

As stated earlier, it is in our best interest to market your restaurant well. We will achieve this through social media, our mobile app and email newsletter.

LOWER YOUR ANNUAL COSTS

EasyEats eliminates the need for a website, manual bookings, and marketing fees. Additionally, it enhances your restaurant's online presence and visibility on Google and social media.

HOW IT REALLY WORKS

- EasyEats bridges the gap between diners and your restaurant through the app and our marketing efforts via various channels - social media, app notifications and emails.
- When restaurants sign up, they will get a free account setup, including the whole menu, and a promotional video. If preferred, we will help restaurant staff learn how to use the app for account management.
- Through our platform, diners can browse through restaurant profiles, see upcoming events or promotions and even book tables.

Our user base is diverse and includes teenagers to adults. It also includes people across Zimbabwe which means it is a helpful resource for travellers looking for great dining spots.
