- Easy to remove propeller system

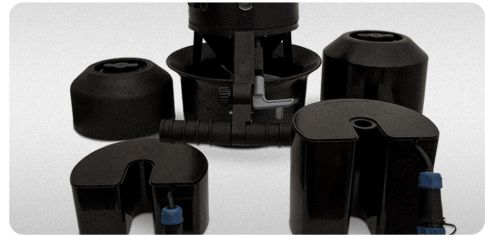

T1S WAHOO DPV

By Divertug

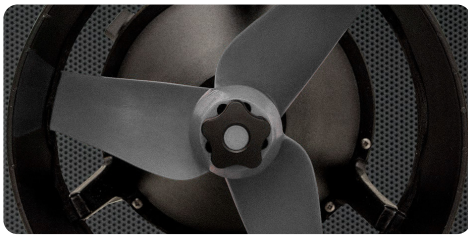

The **lightest** tactical DPV!

Charge it directly from the mains socket, without having to open it and handle the scooter!

Need more autonomy?
Just change the battery
2 scooters in 1!

All our scooters are equipped with an **easy to remove propeller system**.

You can add **a lot off accessories!**

Our batteries are **splash proof**, so you can open it in any situation.

The T1S Wahoo incorporates a **folding handle** to reduce the volume and make it easier to transport.
