

ST MBHA OVERSEAS

Aromatic, Authentic, Unforgettable – The World's
Best Spices!

We proudly export premium-quality red chilli, red chilli powder, turmeric finger, and turmeric powder to the USA, Canada, Australia, UAE, and Thailand. Our commitment to quality and global standards ensures that our products meet the highest industry benchmarks, delivering authentic flavors to international markets.

As an exporter of whole red chillies from India, we offer a variety of premium chilli types and grades to meet our customers' specific needs. Our selection includes Teja, Sanam, Byadgi, and Wonderhot chillies, each known for its distinct flavor, heat level, and vibrant color.

- Teja Chilli – High heat level with a bright red hue, perfect for spicy dishes.
- Sanam Chilli – Medium heat with a rich red color, widely used in global cuisines.
- Byadgi Chilli – Deep red with a mild heat level, known for its natural color-enhancing properties.
- Wonderhot Chilli – A versatile and flavorful choice for various culinary applications.

We take pride in sourcing the finest quality whole chillies from trusted farmers. Our chillies undergo strict quality control measures, including careful cleaning, drying, and packaging, to maintain their freshness, aroma, and taste.

Beyond whole chillies, we also export chilli byproducts such as chilli powder, and other processed forms to markets worldwide, including USA, Canada, Australia, , UAE, and Thailand. Our customers trust us for consistent quality, competitive pricing, and exceptional customer service.

Turmeric is a widely used spice known for its vibrant golden color, earthy aroma, and high curcumin content. It plays a key role in culinary, medicinal, and industrial applications worldwide.

Types of Turmeric Products:

- Turmeric Finger – Naturally dried turmeric in its raw form, used in food, medicine, and extraction processes.
- Turmeric Powder – Finely ground turmeric, commonly used in cooking, health supplements, and skincare products.

Key Characteristics of Turmeric:

- Curcumin Content – The active compound responsible for its deep yellow color and health benefits.
- Flavor & Aroma – Warm, slightly bitter taste with an earthy, mustard-like scent.
- Uses – Essential in traditional cuisines, herbal medicine, cosmetics, and dyes.

Turmeric is extensively used in countries like China, USA, Mexico, Indonesia, and Thailand for its coloring, flavoring, and therapeutic properties. It is a staple ingredient in curries, beverages, natural medicines, and skincare formulations due to its anti-inflammatory and antioxidant properties.
