

### **Standard Payment Terms**

We do not accept cash payments. We have provided a UPI ID for making payments and accepted only when payment is completely received in our bank account with a specific transaction ID.

We are trying to reach an online payment platform to get trusted payments for our services. We will notify you as soon as the suggested payment platforms are available to us.

If any payment is made through the above modes and stuck, no one except you will be responsible for loss of pay and no product will be available without confirming a successful payment transaction.
