Sheen (Lorenzo Marranini)

#### PARTICIPATION

Romina Daniele

#### RELEASE DATE

May 22, 2026

#### FORMATS

Digital, CD (Ltd 12pp Booklet)

#### THE UNIFIED REALITY

From the intellectual rigor of Milan to the soul of Miami, RDM Records operates as a unified bridge where philosophy meets the stage.

Absence marks the beginning of a definitive archival restoration series, reclaiming the original 2015 Milanese sessions for a new global stage in Miami.

*"Art and research are one essential energy toward the authenticity of existence. We explore absence not as a void, but as an implosion: the resonant threshold where the meaning of poetry reclaims its core foundations."*

*RDM Records manifesto with Absence (2026 Official Label Edition).*

A collaborative masterclass conceived by **Lorenzo Marranini** and developed in participation with **Romina Daniele**, *Absence* is a profound exploration of sound research and philosophy. Drawing its title from Daniele's poem, *Absence* (or threshold of my pain), the work serves as a definitive document of the Sheen project.

### SONIC ARCHITECTURE

Working upon "indifferentiated masses" and the intersection of disparate genres, Marranini constructs deep, contrasting electronic environments that translate visceral audio-textual interventions into a labyrinthine sonic map.

This 2026 edition features meticulous new mastering, unveiling the intricate layers of the original 2015 cycle.

*"The duo wins the bet, kidnapping the listener from their own dimension to take them to their 'elsewhere'... a complex and deep variety of sound impulses, inlaid by the metrics of the vocalist, a sublime fresco." ~ GiovanniRossi*

### VISUAL NARRATIVE: ABSENCE, PT. 3

The 2026 release is supported by a cinematic music video for *Absence III*. Currently in post-production, the project creates powerful visual counterpoint to the track's electronic landscape, along with its profound sense of "abandonment and demystification of desire". *Absence* is an inner collapse: a resonant space where the essence finally returns to its most primal foundations.

**Press Notice:** Digital and Physical editions will launch globally on **May 22, 2026**. The cinematic video for Part 3 will premiere shortly thereafter as the second face of this definitive rollout.

### INTEGRITY OF VIBRATION

Each composition corresponds to specific moments of the existential and philosophical research, mapping the "wear and tear of the world" and of being thrown in to the world, sounding for the power of the original vibration.
