Yangshuo Hub: Premier Logistics in Yulong River Core

ABOUT US

Industry Standing Incubated in 2011, Cyclequest is the benchmark for professional cycling services in China and a premier one-stop lifestyle platform.

Scale & Strength

16 Flagship Stores: Strategically located in core cities including Beijing, Wuhan, Chengdu, Guilin, and Yangshuo.

50,000+ Members: A massive community of premium members, highly trusted by high-net-worth (HNW) families.

Exclusive Yangshuo Hub: Dedicated service centers in core areas (Yulong River) providing professional support that far exceeds standard local agencies.

QUALITY CYCLING
SERVICE ELEMENT

 *SPECIALIZED*

TREK

cannondale

Premium Fleet

Brand Portfolio: Exclusively featuring top-tier international brands including Specialized, Trek, and Cannondale.

Fleet Capacity: 50+ high-quality units, ready for large groups.

Full Range: Road, MTB, E-Bike, Folding, and Full-Suspension.

Precision Matching: Expert sizing and selection based on height and skill level.

Rockhopper Expert

SRAM EAGLE 70, ROCKSHOX REBA
(Size; XS, S, M, XL)

¥ 115 HALF DAY

**¥ 230 FULL DAY
(Including Helmet + insurance)**

Please forgive our boasting, but we really exceeded our expectations. We have proven that the performance of conquering greenways does not always need to be accompanied by frightening prices. Rockhopper Expert is the product of our continuous redefinition of the combination of value and performance over the past 30 years.

Starting from the high-quality A1 frame that has been painstakingly crafted, modern geometry has been incorporated, focusing on efficiency while maintaining confident handling, giving Rockhopper a rock solid foundation for excellence.

Combined with a tough parts list (can we shout out RockShox Judy SoloAir front fork and Shimano MT200 hydraulic disc brake that maintains continuous control??) You will also have quasi vacuum tires, Shimano Deore MT5100 1 × 11 transmission, and this Rockhopper is ready for takeoff.

Marlin 4

(Size; XS, S, M, ML, L, XL)

¥ 115 HALF DAY

¥ 230 FULL DAY
(Including Helmet + insurance)

Marlin 4 is a trail-worthy daily rider that's perfectly suited for everyday adventures, on and off the trail. It features a trail-savvy frame with a suspension fork, 8-speed Shimano ESSA shifting and mounts for a rack and kickstand that make it an ideal choice for trail riders or anyone looking for a comfortable, stable commuter with the ruggedness of a real mountain bike.

Trail 7.1

(Size; SM, MD, LG, XL)

¥ 115 HALF DAY

¥ 230 FULL DAY
(Including Helmet + insurance)

Level Up. A mountain bike built to raise your game and ignite a passion for the trail. Designed for the mountains and ready for anything.

Where it thrives Low-impact trails, gravel roads, leisurely ride

What it's built for Handling, durability

Highlights Light and durable SmartForm C3 Alloy frame / SR Suntour XCT suspension fork, 100mm travel microSHIFT 8-speed 1x drivetrain / Tektro hydraulic disc brakes

Tarmac SL7 Sport

SHIMANO 105

(Size: 44,49,52,54,56,58)

¥ 348 HALF DAY

**¥ 696 FULL DAY
(Including Helmet + insurance)**

Tarmac is built for thorough and rapid development, for which we spare no effort or compromise. A Rider First Engineer with profound expertise and unique craftsmanship in the field of aerodynamics™ The combination of technology, consistent handling across the entire range, riding quality, and lightweight frame makes Tarmac ready to assist you, whether your goal is personal records, race championships, or leading the group. 1、 That's all.

The all-new 12 speed Shimano 105 mechanical transmission kit, coupled with the low rolling resistance Turbo Pro 700x26mm outer tire, injects superior performance into this price range with the Tarmac SL7.

FNIX TIME

Model: Time

¥ 148 HALF DAY

¥ 288 FULL DAY
(Including Helmet + insurance)

27.5" Urban Electric Assist Bicycle / Minimalist Design. Maximum Power. Experience the perfect fusion of urban style and off-road capability with the FNIX TIME. Designed for the modern commuter and the weekend adventurer, this 8-speed electric assist bike delivers a smooth, powerful, and tireless ride. **High-Efficiency Power System** Powered by the **Mivice M080 High-Precision Brushless Motor**, the FNIX TIME delivers **350W** of quiet, surging power. The advanced **Torque Sensor** ensures the motor engages smoothly and instantly, amplifying your pedaling with minimal effort. Whether climbing hills or cruising flat roads, the high-torque output makes every ride a breeze. **Long-Lasting Smart Battery** Small size, big energy. The bike features a **36V/12AH** battery pack using high-performance **Xinchi 3000mAh (LMFP)** cells. Equipped with a BMS smart chip, it ensures safety and maximizes range. The battery is neatly hidden within the frame for a sleek look.

Pro rental/

Tech Support

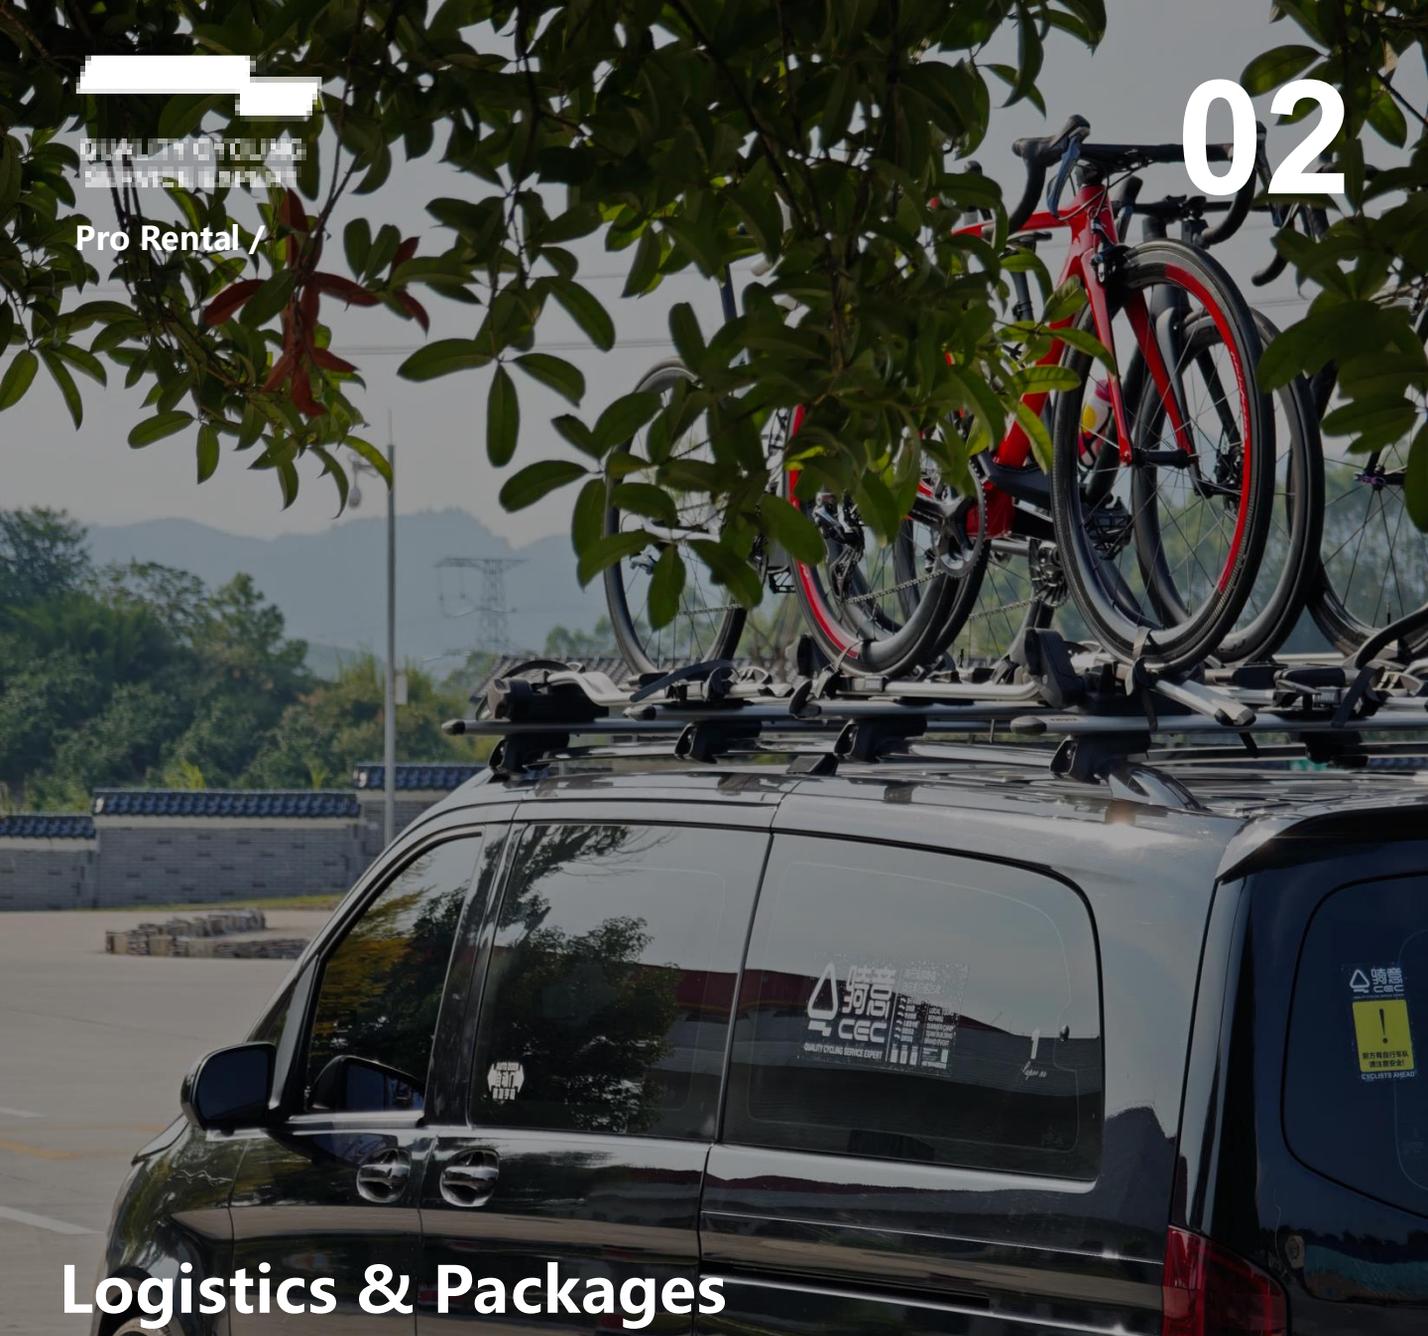

The Professional Edge: Full Technical Maintenance

Expert Care: Shimano-certified technicians handle all daily and outbound inspections.

Standardized SOP: Rigorous cleaning, lubing, tire checks, and precision tuning.

Zero-Risk Promise: Every bike delivered in peak condition; no aging or substandard gear.

Logistics & Packages

Support & Rental Packages

Broom Wagon: Full logistics support with first-aid and transport for tired riders.

Instant Repair: On-site professional technicians for immediate mechanical fixes.

All-Inclusive: Helmet, insurance, maintenance, and custom routes included.

Pricing: ¥200 - ¥2,000/day (Entry-level to Pro-racing fleets).

03

RtR Curriculum

Exclusive Model: Ride • Tech • Repair

Module 1 (Explore): 12+ Curated Routes & Champion Mentorship

Modules 2 & 3 (Create): STEM Mechanics & Hands-on Workshop

RtR Curriculum /

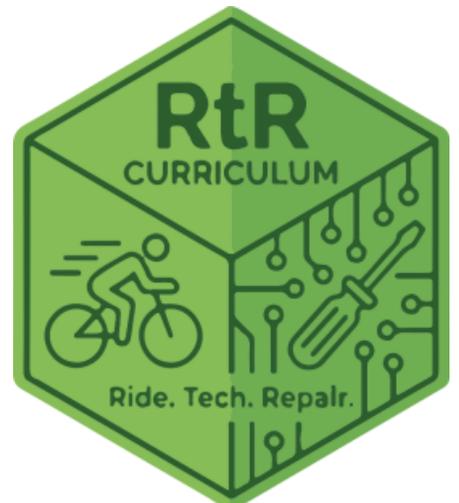

RtR Curriculum /

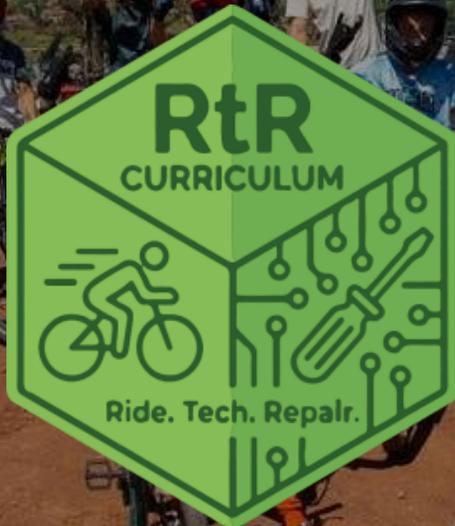

STEM-Driven Outdoor Education: Professional bikes as educational aids.

Ride: Character & Discovery

Tech: Physics & Engineering

Repair: Practical Logic

RIDE

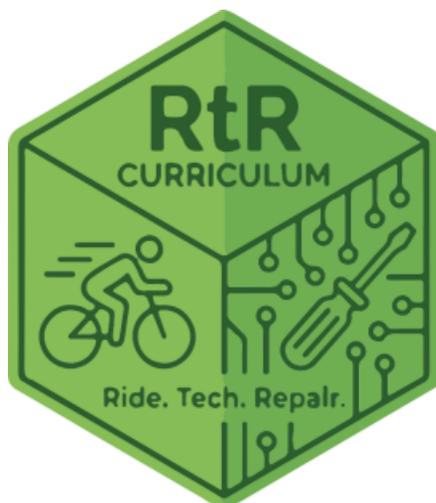

Module 1 - Ride

Expert Coaching: Taught by former pro riders.

Tiered Learning: 3-level courses (Junior to Senior) with matched equipment.

Core Techniques: International signals, slope control, and Drafting.

Exclusive Routes: 12+ traffic-free paths through Yangshuo's Karst scenery.

"RtR Elite Cycling Camp"

(One-Day Advanced Course)

Ride . Tech . Repair

Core Value Proposition

The course is built around four main pillars to ensure both educational value and parental satisfaction:

Safety Loop: Full protective gear is mandatory, accompanied by a certified medic and a first aid kit¹.

Visual Output: Professional photography/videography (dynamic and static) is provided before lunch, including pre-written social media copy for parents to share².

Hard Skills: The curriculum moves beyond just riding to include "Emergency Avoidance" and mechanical repairs, aiming for a "Ride, Repair, Avoid" skillset³.

Certification: Participants receive an "Elite Cycling Skills Certificate" upon completion⁴.

Morning: Foundation & Control

Arrival & Setup (08:30-09:00): Gear fitting (helmet check: two-finger width), site familiarization, and ice-breaking games to form teams.

Safety & Balance (09:00-10:30):

The "3 Checks": Teaching kids to check brakes, tires, and chains.

Hand Signals: Left/Right turn, slow down, and stop.

Balance Drills: Includes "Slow Balance Beam" and stationary balancing (Track Stand) aimed at 3-5 seconds.

Advanced Challenges (10:30-12:00):

S-Turns & Narrow Paths: Focuses on vision control ("look where you want to go") and riding on narrow, slightly sloped paths. "Snail Race"

(Slow Race): A 10m race where the last person to finish without touching the ground wins, teaching low-speed control.

Obstacle TT: A timed trial involving S-bends, narrow lanes, and a precision stop test.

Midday: Recovery & Engagement (12:00 - 13:30)

Nutrition: Customized meals with protein/carbs.

Parent Updates: Photographers edit a 15-second highlight video and select photos to send to parents immediately during lunch.

Social Media: The team provides three sets of pre-written text for parents to post (e.g., focusing on patience, skills, or safety)

Afternoon: Technical & Mechanical (13:30 - 17:00)

Technical Riding (13:30-15:00):

Gearing: Logic for uphill vs. downhill and avoiding "cross-chaining"¹⁵.

Cornering: "Inside pedal up, outside leg weighted" technique¹⁶.

Braking: 70% front brake / 30% rear brake distribution to prevent skidding¹⁷.

Emergency Avoidance: New module on swerving to avoid sudden obstacles (rocks, puddles)¹⁸.

Ride & Repair Workshop (15:00-16:30):

5-10km Ride: A group ride containing hills and curves where students take turns being the "Navigator".

Maintenance Class: A practical session on the "5-Minute Tire Change," chain cleaning, and brake adjustments.

Closing (16:30-17:00): Review of the day's video, sharing session, and awarding certificates/medals

Operational Safety & Contingencies /

The document details strict protocols for managing risks:

Gear Policy: No helmet/pads = no riding. Regular checks for loose gear during the day.

Support Vehicle: Follows the team with water, electrolytes, and energy bars.

Medical Response:

Minor: Saline/iodine treatment.

Heatstroke: Move to shade/AC, hydration, monitor temp.

Emergency: Immediate 120 call and parent notification.

Weather Plans:

Heat: Start 30 mins early, extend lunch break.

Rain: Move to indoor stadium, focus on balance and repair skills.

Route Matrix: 12+ Exclusive Academic Routes Traffic-free paths linking Yulong River ecology and iconic Karst landscapes.

TECH

Module 2 - Tech

Teaching Aids: Utilizing our premium rental fleet as tangible, hands-on teaching tools.

Physics Principles: Exploring Gear Ratios and mechanical leverage through drivetrain systems.

Mechanical Engineering: Comparing Hydraulic vs. Cable-actuated disc brake systems.

REPAIR

Module 3 - Repair

Setting: Professional workshop at Yangshuo Base or real-world outdoor practice.

Hands-on Skills:

5-Minute Emergency Fix: Hands-on puncture repair and tire replacement in the field.

Routine Maintenance: Chain cleaning SOPs and basic derailleur tuning.

Objective: Empowering students to think like mechanics and master practical problem-solving.

04

Safety & Delivery

International Safety:
Bilingual Instructions | 1:5 Golden Ratio
Certification: Performance Evaluation | Completion Certificates
Success Stories: Global Expeditions | Family Camp Experience

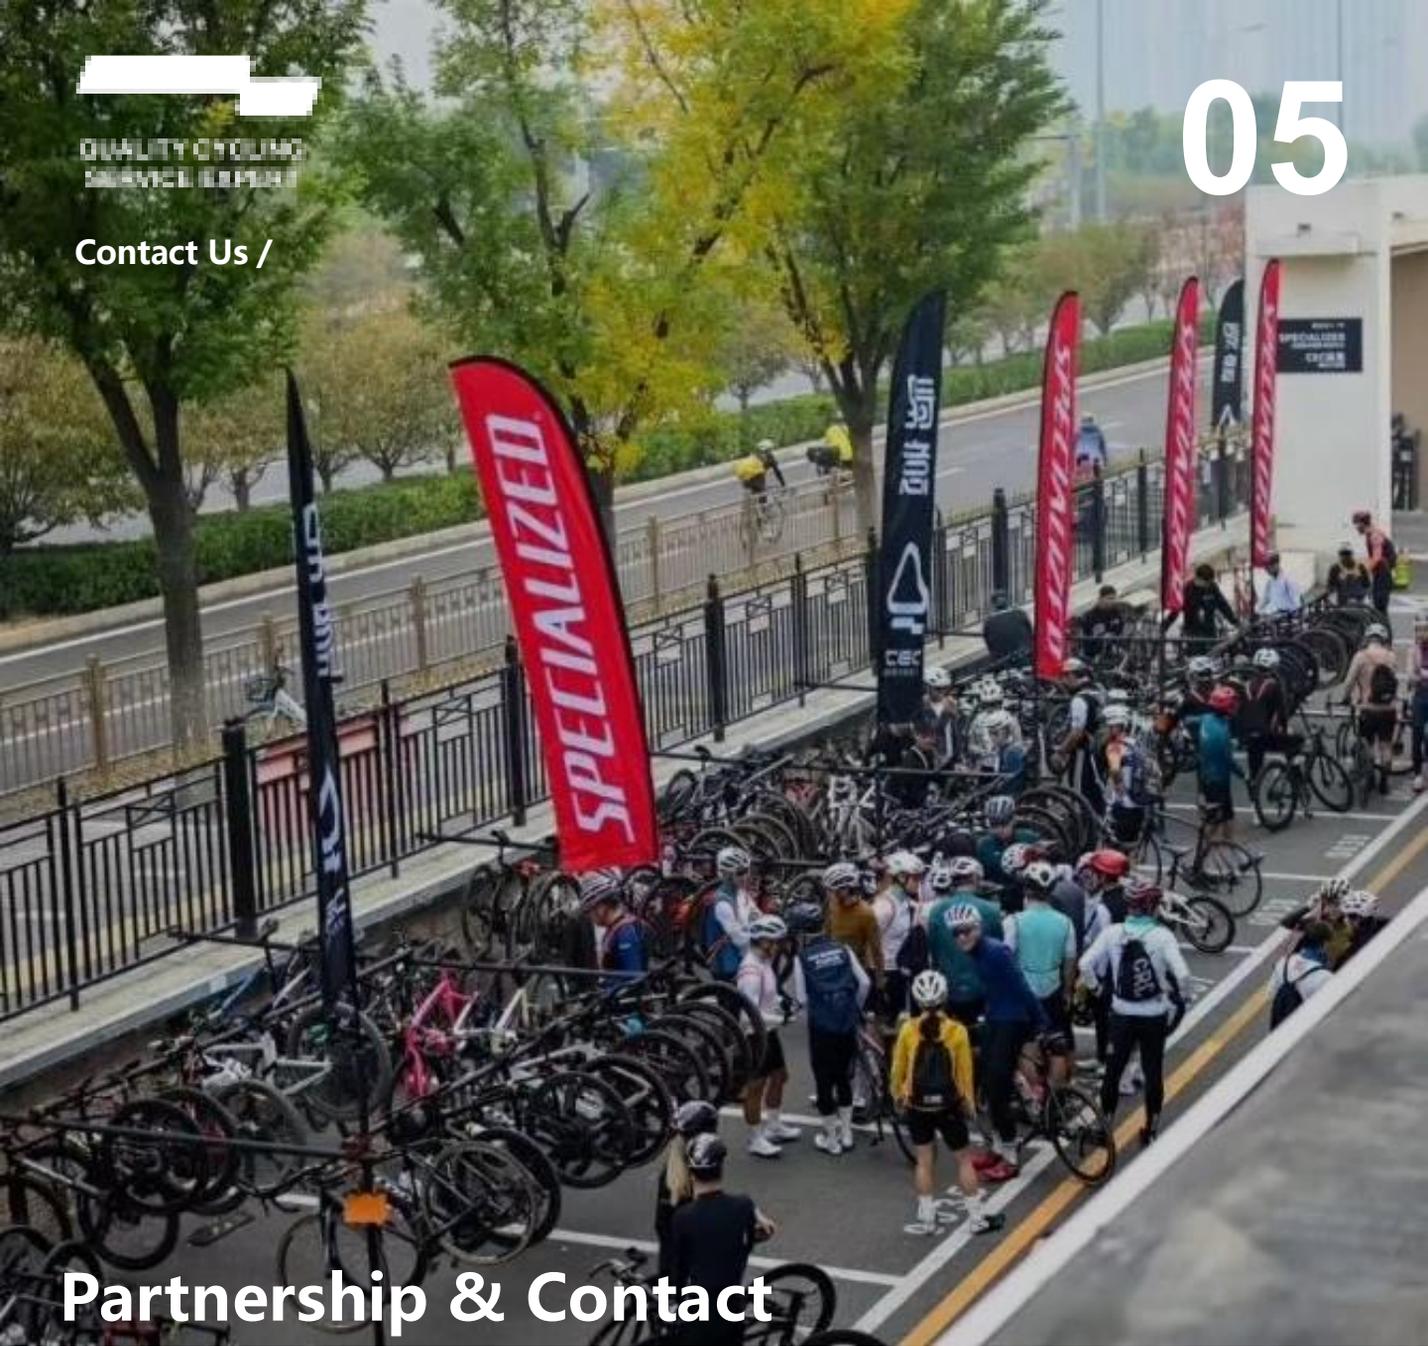

Achievement

kill Evaluation Matrix: Tracking the mastery of cycling techniques and mechanical proficiency.

Certificate of Completion: Official program recognition to bolster student portfolios and comprehensive assessments.

Value-Added Rentals: Ride performance reports and curated "check-in" route guides provided for all rental guests.
