

## Installation Guidelines

The secure Uping stock prediction tool or app is imported to TradeStation platform ([TradeStation | Online Trading And Brokerage Services](#)) so the Uping stock prediction trendlines could be automatically generated to assist TradeStation traders in trading any stock in any time frame that the users select. Just for testing.

Please contact TradeStation Customer Service ([Contact Us | New Accounts & Client Support | TradeStation](#)) related to any questions about the use and operation of general TradeStation trading platform;

and contact [Upingtrade@gmail.com](mailto:Upingtrade@gmail.com) or [Uping28@outlook.com](mailto:Uping28@outlook.com) for questions related to Uping Stock Prediction tool/trendlines.

The users of Uping prediction tools need to provide the following information in order to install Uping Stock Prediction tool or app in your Tradestation application:

1. Submit a signed “Disclaimer and Agreement” form or send the above Uping email a confirmation email about your acceptance of this form.
2. Provide your Tradestation Customer Number to Uping that is needed to set up the app for you (see detailed installation guideline about how to find this ID).
3. A secure and encrypted ELD file based on what Uping stock prediction tool and duration you purchased will be available to download from Google drive or from Uping’s delivery email about 3-5 days after the purchase. This ELD file is compatible with Tradestation trading platform and is imported into Tradestation so that the Uping prediction trendlines or indicators will be automatically generated with real time stock price as shown in Chart Analysis window in Tradestation (see detailed installation guideline about how to import this ELD file). Then the users can trade stocks with valuable trendlines or indicators generated by Uping stock prediction tools.
4. Please contact [Uping28@outlook.com](mailto:Uping28@outlook.com) for additional installation Guidelines in details.
