

I Want You Back

1st Verse

You're a thousand miles from home,
Every night I pick up the phone and say.
My heart's in the words that I speak,
My heart's cared the love we've shared.

2nd Verse

There are things I just can't see,
Like why your work takes you far away.
The days and nights go by slowly,
I miss your touch, so you see.

Chorus

I want you back,
So come on back.
I'm in a helpless way, I'm tormented day by day.
I want you back,
So come on back.
I can't take much more of this,
Without you.

Bridge

At times we talk why the world's gone mad,
At times we talk why monies bad.

3rd Verse

But in my dreams, everything's right,
The world's perfect and you're with me.
I know we can't change the world but,
I really need you here that's why.

Repeat chorus

I want you back,
So come on back.
I'm in a helpless way, I'm tormented day by day.
I want you back,
Yes, need you back.
I can't take much more of this,
Without you.
