

# **Because It Matters**

## **US**

Our overlapping voices fuel our spirits. Even when we're behind the lens, we open our eyes to what matters.

## **FLORIDA**

As Floridians, we have as many opinions on the state as we have accents to speak up on the issues. We register early because our votes matter.

## **COMMUNITY**

We're more than just Americans or Floridians. On top of our civic and student responsibilities, we give back to Palm Beach everything it's given to us.

## **DREYFOOS**

Our art matters on a deeper level. The hug may be for show, but our friendships are real. The trust is real. The inspiration is real. What matters is we never dance alone.

## **ONLINE**

Zooming in, the fight between what we think matters and what truly matters reaches a tipping point. We find cursors to hold hands with, but the comments sound just like yelling.

## **FAMILY**

Take away our country, our city, our phone, but no one can take our heritage. We remember those before us while gathered with those who matter most.

## **SELF**

Happiness is in our hands, we make it a great day. Whether on stage or the floor of our room, we follow our passion. Because it matters.
