

## Candid cock crush

I tried something new and drilled a hole in the floor under the rubber mat in front of the ticket office of a mobile ice skating rink. Then I lay down underneath and pushed my penis through the hole... It was pretty painful! Unfortunately, the quality isn't that great, which was due to the endoscope camera. Still awesome.

## Unknown cock crush game 01

I built a kind of crush box on a platform to play my favorite game with girls: Blindfolded, crushing things and guessing what they are. What she didn't know was that there was a false floor underneath where my cock was. After she put on the mask, I removed the camouflage so that part of it could be seen. My cock is in a hollow so it's not so painful and she doesn't hear me moaning in pain, which would be too suspicious. Besides, I didn't want her to notice that there was something else there. I stretched the rubber band over it to keep the little thing in position and prevent her from squishing it on the sharp edge. Unfortunately, she always took her foot away just before I was ready to cum. It was still hot.

Running time 36:49, Size 2.02 GB

## Candid worm crushes Karneval 01

Finally, another candid video, this time during Carnival. Unfortunately, I only had this one opportunity. It was pretty difficult this time; there were too many eyes everywhere, and it felt like everyone was staring at me. Nevertheless, I managed to get a few good videos with worms. The focus is on boots/ankle boots, but I also included a few sneakers.

## Candid worm crushes Karneval 02

Finally another candid video, this time at Carnival. Unfortunately, I only had this one opportunity. It was pretty difficult this time; there were too many eyes everywhere, and it felt like everyone was staring at me. Nevertheless, I managed to get a few good videos with worms. This one features only boots/ankle boots.
