

Best of female shopping

Here are the best scenes from my shopping videos. I secretly hung a GoPro under various women's shopping carts and put tangerines in front of their carts whenever they walked away from the cart. Still very cool footage. The video only contains the crush scenes. Mainly boots and ankle boots.

Best of 2019

A best of from the beginning, the quality was a bit poor and there weren't so many good crushes, but it's still worth a look. Since it's quite short and the quality is sometimes bad, the video is cheaper.
