Profile

Digital artist and creative technologist. Following a long career teaching computer science, programming, and digitalµ electronics, I am now dedicated to exploring the intersection of art and digital innovation. My work focuses on fusing artistic expression with computational processes to create contemporary digital artworks.

Art Education

1973-74

Full-time first-year student at the Beaux Arts Institute, Paris, France

2000-2010

Attended several painting and figure-drawing classes at the Guild Art School, with several local artists, including Brooke Schnabel, Paula Gottlieb, and Susan Halls.
